### CALVES

Raise them without milk. Booklet free. The Steele, Briggs Seed Co., Toronto, Ont.

Elizabeth's mother did not teach her little daughter much that she should have learned about religion, nor did the father.

The other day a guest said to the little girl: "Elizabeth, does your father say grace at the table?"

"What grace?" returned the girl, innocently.

"Why, thanks for what you have to eat."

"Oh," replied Elizabeth, now enlightened, "we don't have to thank anyone for what we have—we always pay cash."

### QUALITY, BREEDING AND REAL VALUE.

We now add that the number is greater; each animal is in perfect condition in every way; no apologies or explanations will be necessary; there will be bulls and heifers that have won in the best shows, and that can win again; there are others that have never been shown that will be wanted by those that are after the honors of 1910.

Unprejudiced men will use this space and more to tell you the rest, but in the meantime get your name in line for illustrated catalogue, and keep the dates open so you can be there.

There will be cheap rates to attend the annual Shorthorn meeting on the 1st.

**Robert Miller, Stouffville, Ont.,**

MANAGER OF SALE.

Auctioneers: Col. Geo. P. Bellows, Maryville, Mo.; Col. Carey M. Jones, Chicago, Ill.; and Captain T. E. Robson, London, Ont.

**W. W. WING, SALEM P.O., ONT., ELORA STATION.**

### QUESTIONS AND ANSWERS.

Miscellaneous.

#### WEIGHING ANIMALS—WORKING HOURS, ETC.

1. If I or any man takes a load of hogs to market, or a beast of any kind, can the weigh-master prevent the owner going in to see them weighed?

2. If I engage a man for a number of months, can he quit work at 6 o'clock and call his day's work in, and claim every second Sunday?

3. What holidays is he entitled to?

Ontario. SUBSCRIBER.

Ans.—1. No.

2. No.

3. He is entitled to the statutory holidays, that is to say, Sundays, New Year's Day, and so forth, but subject to the doing of "chores," even on such holidays. There is no arbitrary rule as to hours—they must be reasonable from point of view of both employer and employee.

#### VALUE OF BUTTERMILK.

What would buttermilk without rinse water in, and fresh from churn, be worth per hundred pounds at factory for feeding hogs, or its price per gallon; or would there be any likelihood of selling it in Toronto as a beverage?

York Co., Ont. SUBSCRIBER.

Ans.—We should think you would find little difficulty in disposing of buttermilk in Toronto for beverage purposes at a very remunerative price. For feeding hogs at the creamery on a wholesale scale it should have a value of not less than twenty cents per cwt., and by good management it might be made worth more. For use on a farm in regular quantities not in excess of reasonable needs it should be worth in these days of high values not less than 25 or 30 cents per cwt.

#### MISCELLANEOUS.

1. Can you give directions for making a roller hay rack?

2. What is the right way to put rope in two- and three-wheel pulleys for purchase?

3. What is the best blood preparation for heavy draft colts, with a view to keeping their legs all right?

4. How close can horses be bred without being called inbred?

5. How close bred are the Clydesdales eligible in Canada for registration?

O. A. C.

Ans.—1. It is made on a flat rack, and is, really, a car running on four wheels, on a track on rack. It covers one-half of the wagon rack. When starting to load from a hay loader, this car is fastened at back end, and half the load is built by tripping it and stopping horses, the car rolls to front end and is fastened, then remainder of load is built behind. One man may easily and quickly build a load this way. It is possible our friend may refer to a roller placed at rear end of rack, by means of which ropes may be tightened over the load, instead of a binding pole being used.

2. Put rope in pulleys so that they will not cross, that is all. The purchase would be just as great if they did cross, but they would not work so easily.

3. The best treatment to keep colts right in that respect is judicious feeding, sufficient exercise, and good ventilation. The following is recommended as a condition powder for horses: Two ounces each of ferrous sulphate, pulverized gentian, pulverized dry yam, and nitrate of soda. Mix, and give a teaspoonful night and morning in ground oats or bran.

4. Generally speaking, what is meant by inbred or inbreeding, is breeding the daughter to her sire, the dam to her son, mating sister and brother, or other close relatives. No definite limit for safety has been fixed, nor can be, for much depends upon the vigor and vitality of the stocks used.

5. There is no rule in the requirements for registration limiting the extent of inbreeding.

#### A FORTUNATE ESCAPE.

A little Scotch boy on being rescued by a bystander from the dock into which he had fallen, expressed heartfelt gratitude, saying: "I'm so glad you got me out. What a liekin' I wud have frae my mither if I had been drowned!"
