MOTES BROMA. The following observations having reference to the preparation of Brown.

MOTT'S DROMA. The following observations having interference to the preparation of Broma, appeared in a late number of the beston Medical Journal:—

"A few years since a great manufacturer of Broma sought the opinions of many medical gentlemen of distinction, for the purpose of having an unobjectionable fold for dreatists, and was assured that he had fully succeed. Howards infirmaries, and households concernite food for freezests, and households generally, chould always be provided with it. When gruet, arrow-root, greats, barley, starch, rice, farina, and many other things ordinarily resorted to for patients are of no utility. Oh Brona is sometimes relished. It is believed that those who use it as a beverage will have manifest diatetic adversary the consumers of tea and coffee. We see it guntage over the consumers of tea and coffee. We see it stated that during the last summer those individuals who gantage over the consumers of tea and coffee. We see it stated that during the last summer those individuals who were continually using Chocolate or Broma neither had gtacks of cholera or dysenteric affections, while others of the same families, taking their daily potations in tea, office, or simple cold water, were the sufferers, if any.—Ye cannot vouch for the truth of this, but it has recalled to mind the statement that the oil dealers in London have been free from Cholera or the choleroid symptoms. And it has been further observed that persons who were taking oul liver oil for chronic difficulties, during the prevalence of the late epidemic, were not affected by it. To estable oil in the first instance, and animal off in the last, taken internally, would appear, by these statements, to have secured those who took them from the slaats of the pestilence. It is certainly a point well worth, while to determine, whether the chocolate drinkers have been seeme in other intested cities."

Mot's Broma has now been before the public for a considerable period, and along with the commendations of the M slical Falcalty of this and the neighbouring Province, it has received the approbation of all classes of consumers.—It is held to be an article of standard reputation, and the demand for it is constantly increasing.

Ricumatism, Indigestion or Dyspepsia.

Stubborn Liers,
Syphilitic Disorders,
Ladies of pale complexion and consumptive habits, and such as are debilitated by those obstructions which females are liable to, are restored, by the use of a bottle or two, to bloom and vigour.

The number of Diseases mentioned above, as cured by this preparation of surasparsita, may seem large; but we are, nevertheless, prepared to prove, by an extensive array of certificates, that such is the fact. A fraction of the evidence which we possess concerning each disease, would be received before any judicial tribunal as complete demonstration. It must be remembered that all this frightful array of maladies, though appearing in an endless variety of forms, are yet similar in their origin and causes; for they all spring directly or indirectly from a corrupt fountain. If the blood were in a pure, healthy, and active state, it would drive all these complaints from the system, and chronic disease would be impossible.

General Agent for Dr. S. P. Townsend's Sarsaparilla, for British Provinces.

Dran Sir,—My wife has been declining in health for the last fifteen years with weakness and general debility, but the last 12 months she had been getting worse and worse, being under 3 doctors' hand, and taking various kinds of Medicines, but found she was getting no better, being troubled with patpitation of the heart, &c.—Her frame became emaciated, and her appetite and strength failed, and she was considered, as she undoubtedly was, in the last stage of Consumption. I was informed kindly by one of her doctor; that he could do nothing more for her and did not wish to pit me to any more expense. As a last resort I purchased a bottle of your valuable Sarsaparilla, from your agent in Kentville, Mr. B. Calkin, at the same time expecting it would be of no use. But I am free to confess that I was disappointed; my wife-commenced using it, and before one bottle was exhausted she experienced a decided relief. She has used about 7 bottles, and her health and strength are restored and appetite good, and rests well at night. I carnestly recommend it to suffering mankind as a valoable Medicine. THIS MEDICINE has acquired a very extended and contributively on its own merits, which its superior efficacy has alone sustained.—The unfortunate victim of hereditary disease, with swollen glands, contracted sinews, and bones half carious, has been restored to health and vigour. The scrofulous patient, covered with alcors, leathsome to him self and his attendants, has been made whole. Hundreds of persons, who had groaned hopelessly for years, under cutaneous and glandular disorders, chronic rhemmatism, and many other complaints springing from a derangement of the secretive organs and the circulation, have been raised as it were from the rack of disease, and now with regenerated constitution, gladly testify to the efficacy of this inestimable preparation.

The following is an extract from a letter received from Mrs. Bevan, who had been afflicted several years with Scrofulous Ulcers, Dyspepula, &c., and recently with an affection of the throat and cheet:—

Mesters. A. B. & D. Sanne: Before I commenced using your Sarsaparilla, my sufferings were almost past expression: my throat was completely alcerated, I had a dreadful cough, and there were frequently weeks fogether thrule could not speak above a whisper; and besides, the inflammation from my throat extended to my head, so that my hearing was very much impaired. After taking the Sarsaparilla a short time, my health improved, and my throat is now well; I am as free from cough and tightmass of the cheet as ever I was and can hear quite distinctly. Sin.—For a long time I was a marryr to Rheumatism and Rheumatic Gout, and for ten weeks previous to using your medicines. I was so had as not to be able to walk. I had tried dectoring and medicines of every kind, but all to no avail, indeed I daily got worse, and felt that I must shortly die. From seeing your remedies advertised in the paper I take in. I thought I would give them a trial. I did so. I rabbed the Unitment in as directed, and kept sublage leaves to the paris thickly spread with it, and took the Pills night and morning. In three weeks I was emblage leaves to the paris thickly spread with it, and took the Pills night and morning. In three weeks I was emblage leaves to the paris thickly spread with it, and took the Pills night and morning. In three weeks I was embled to walk about for an hour or two in the day with a stek, and in seven weeks I could go any whore without one. I am now, by the blessing of God and your modicines, quite well, and have been athending to my business more than seven months, without any symptoms of the return of my old complaint.

Hewides my case of Rheumatic Gout, I have lately had proof that your Pills and Chintment will heal any old wound or ulcer, as a married woman, living near mo, had had a bad leg for four years, which no one could core, ami I gave her some of gase Pills and Chintment, which soundly healed it when nothing else would do it. For your information I had the honour to serve my country for twenty-five years in the first regiment of Life Guards, and was eighteen years a corporal. To Professor Holloway,
Sin.—I was superintending, about six months ago, the
erection of one of our Railway Bridges, and by the fall of
a large stone my right foot was seriously bruked, which
ultimately got so bad, that I was advised to go to Edinburgh to consult some of the emiscut Surgeons, which I
did, and was told that in order to save my foot, two of
my toes must be taken off. In despair, I returned home
to impart the melanoholy news to my wife, intending to
submit to the operation, it was then a thought struck me
to try your valuable Clutment and Pills, which I did, and
was by their means in three weeks enabled to resume my
usual occupation, and at this time my tows are perfectly
carred. (Signed) OLIVER SMITH JENKINS.
