

# A. STANLEY JONES North Battleford SASKATCHEWAN

DON'T BUY any small thresher without knowing all about this one

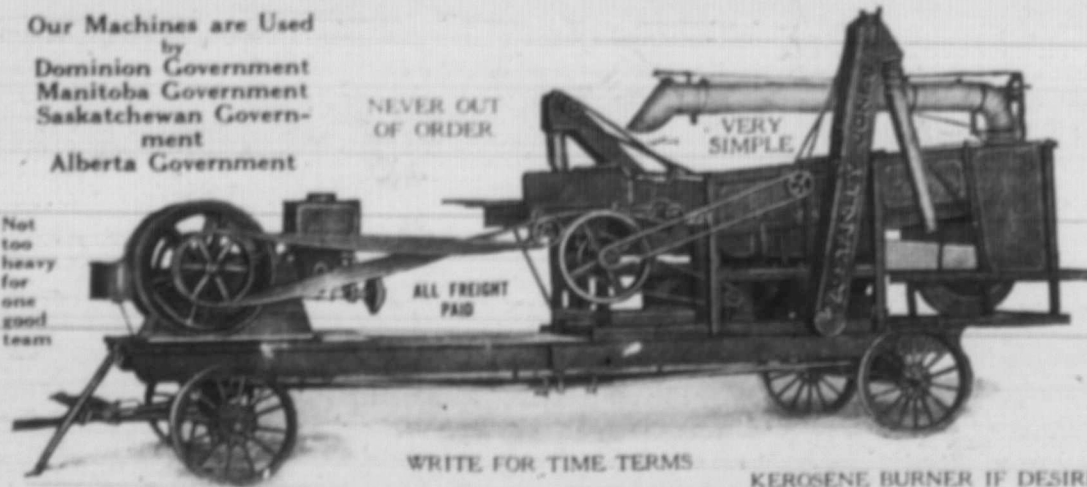

OUR MACHINES THRESHED THE WORLD'S PRIZE WHEAT OATS FLAX BARLEY AND GRASS

Our Machines are Used by Dominion Government Manitoba Government Saskatchewan Government Alberta Government

NEVER OUT OF ORDER

VERY SIMPLE

ALL FREIGHT PAID

Sold in West for last SEVEN years

Repairs stocked in Manitoba, Saskatchewan, Alberta

Is a Separator chosen by Government good enough? And chosen, not because it was cheapest, but BECAUSE OF ITS WORK

WRITE FOR TIME TERMS

KEROSENE BURNER IF DESIRED

It can be fitted with either straw carriers or blower. Special grate behind cylinder saves 80 per cent of grain right there. Cylinder bars of solid steel—NO WOOD. Platform included. A man and one helper can thresh with this machine quicker than they can stack. Nothing fancy or flimsy, made solid, strong and honest, with frame work of hard wood as heavy as many big rigs. DON'T TAKE A CHANCE—your grain is too valuable this year. SAVE ALL THE GRAIN with this machine.

When the crop is cut will you be running around to arrange for someone to thresh you out, or will you be independent with the Right Machine waiting all ready in your yard to pull in at the Right Moment.

28 in. Separator, 9 H.P. Engine with Straw Carriers, Magneto, Platform with Double Truss Rods and Freight Paid \$870

If a Blower is wanted and Straw Carriers are deducted it would come to \$1025

If you already have a Tractor buy the machine you can use without lots of help, with Trucks, All Belts and Fittings. Freight Paid \$500

The Question is NOT if you CAN afford it, but CAN YOU AFFORD TO DO WITHOUT IT!

WRITE FOR CATALOGUE AND GET FULL PARTICULARS, WE CAN'T TELL ALL HERE.

Not Only The Grain You Raise but the Grain You Save Helps Win the War

THE great problem is not only to raise more wheat but to save more wheat. And the saving is just as real when effected at threshing time as it is when substitutes are used at home.

## THE HUBER JUNIOR THRESHER

The Huber Junior Thresher will help you save the grain from the start. With it you can do your own threshing with your own help when the grain is just right. You save loss from sprouting if the season is wet. You save loss from shelling out if the season is dry. You save the grain whether the straw is long or short, the yield heavy or light, the grain dry or damp. For years before the great war, the slogan of the Huber Junior Thresher was: "It Saves the Grain."

Any 12-25 tractor runs the Huber Junior Thresher with all attachments. The saving in threshing bills will soon pay for it. Large enough to do your own threshing and your neighbors' if you like.

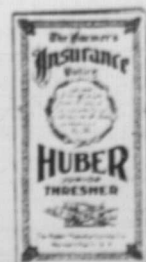

Write to nearest address for "The Farmer's Insurance Policy," describing the Huber Junior Thresher in detail. Also for literature descriptive of Huber Threshers in the larger sizes

J. D. ADSHEAD CO., Distributors for Alberta, Calgary, Alta.

R. E. BARKLEY, Vegreville, Alta.

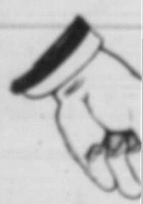

AUTO SERVICE CO., Ltd., Regina, Sask.

HUBER MFG COMPANY, Brandon, Man.

The Huber Junior Thresher is made only by The Huber Manufacturing Co., Marion, Ohio, U.S.A.
