Birth-marks which mark and mar the outside of the body are a grief to every mother whose children may bear them. But for every child who bears a birth-mark on the skin there are many who bear an indelible birth-mark on the mind. Nervous mothers have nervous children and many a are many who bear an indelible birthmark on the mind. Nervous mothers have nervous children and many a man and woman owes an irritable and despondent temperament to those days of dread when the mother waited the hour of her maternity. The use of Dr. Pierce's Favorite Prescription strengthens the mother for her trial. With strength comes a baoyancy of spirits and quietness of mind, which is one of the happiest gifts a mother can bestow on her offspring. By giving vigor and elacticity to the delicate womanly organs "Favorite Prescription" practically does away with the pain of maternity and makes the baby's advent as natural and as simple as the blossoming of a flower. There is no opium, cocaine or other narcotic contained in "Favorite Prescription."

sale Murderer McGill.

New York, July 15.—A New Orleans despatch to The Times says: Frem Mobile late Thursday night came the news from Honduras that Robert McGill, the Honduran who murdered 11 persons on an English vessel recently, was lynched at Utilla, Henduras.

President Bonilla had declared that he wanted no lynchings, as McGill was a British subject, but the citizens were wrought to a frenzy through the narrative of Miss Morgan, who has recovered to tell the happenings on the schooner. The jail was surrounded at nightfall, the guard quickly everpowered and McGill, raving and cursing, dragged from his cell.

It was proposed to burn him in front of the kome of Miss Morgan. The mob went so far as to build the fire, but the pleadings of the British consular agent finally persuaded the mob to put the negro to a less fearful death. He was bound, and still protesting and begging strung up to the verandah of the Morgan home and riddled with bullets.

LIVELY FIRE AT WINDSOR, N. S. Historic Hetel Is Gutted—Tewn Was

Halifax, July 15.—Fire started in the Dufferin Hotel at Windsor, N. S., about 10.30 o'clock yesterday morning and gained great headway in a few minutes. All the firemen could do was to keep the fire from spreading to the buildings on the left, Bennett, Smith & Sons' block, and ether buildings in the vicinity. The falling of burning timbers caused great danger. The hotel was built in 1366, the year the Prince of Wales visited Windsor.

The citisens worked with buckets to put out fires on buildings caused by sparks. The new station was in great danger, and at noon the round house and freight shed were on fire. It was impossible to stand on Upper Water street on socount of the terrific heat.

At 2.30 the fire was about out. The Dufferin building is a perfect wreck. The D. A. R. station was on fire at the time, and the train going west was delayed three hours. There is about \$12,000 insurance on the Dufferin.

Hope For Indigent Insane

Hepe For Indigent Insane:

Toronto, July 15.—Premier Whitney yesterday listened to a plan eutlined by a delegation of doctors by which they hope to avert the ever-increasing number of the insane. The plan suggested to the Government is to practically train the doctors and nurses who come in contact with such cases what proper treatment should be, and also the sending of patients to wards established in hospitals, instead of placing them under the harsh care of a common jail. There will probably be such a ward established in the new hospital. A commission on lunacy was advocated. Dr. Pyne, who, with the Premier, listened to the various speakers, was warmly in favor of the proposition. The Premier was not prepared to say how the proposals of the deputation would be treated, but he assured those present that the Government was alive to the gravity of the situation and were pleased to have suggestions made.

I have taught over 700 girls in this way within the past three years, and all were more than satisfied. If you are, the wife or daughter of a farmer, mechanic, laborer, merchant or millionaire, you should learn Dressmaking. And if you have this knowledge you can, by saving dressmaker's bills, be able to dress much better, with less money, dress much better, with less money, than you probably do now. I teach you how to put together, not only, the lining, but all the outer goods, the lining, but all the outer goods, in coats, skirts, waists, wrappers, sleeves, in fact everything in dressmaking. And you are losing nothing by trying, for if you are not satisfied at the end of the term, then there will be no charge.
