

REMARKABLE CURE OF RHEUMATISM

Supt. Of Sunday School in Toronto Cured by "Fruit-a-lives"

R. A. WAUGH, Esq.

TORONTO, Ont., Oct. 1st, 1913. "For a long time, I have thought of writing you regarding what I term a most remarkable cure effected by your 'Fruit-a-lives'. I have lived in this city for more than 12 years and am well known as suffering from Rheumatism especially in my hands. I have spent a lot of money without any good result. I have taken 'Fruit-a-lives' for 18 months now and am pleased to tell you that I am cured. All the enlargement has not left my hands and perhaps never will, but the soreness is all gone and I can do any kind of work. I have gained 35 pounds in 18 months."

R. A. WAUGH, 55 DOVERCOURT ROAD. "Fruit-a-lives" will always cure even the most stubborn cases of Rheumatism because it is the greatest blood purifier in the world and acts on the bowels, kidneys and skin.

"Fruit-a-lives" is sold by all dealers or will be sent on receipt of price by Fruit-a-lives Limited, Ottawa.

White Ribbon News.

Women's Christian Temperance Union first organized in 1874.

Ballets.—Mrs. M. Freeman. Labrador Work.—Mrs. F. Woodworth. Scientific Temperance in Schools.—Mrs. G. Giddens.

Labrador Meeting at the homes of the members last and 3rd Tuesday even ings in the month.

Temperance in France.

It is significant of the growth of temperance sentiment in the world that France, one of its greatest wine and liquor producers, should be in the throes of a nation-wide temperance campaign. Last November a petition was presented by 222,000 French women to Parliament asking for an Act to restrict the number of bars, saloons, and other establishments for the sale of spirits.

The movement is directed principally against distilled liquors, since three million and a half vine growers in the country have at present too much political strength. But the women would seem to have a case for reduction in the number of saloons that is unanswerable, at least from a North American standpoint. Between 1930 and 1911 the number of spirit selling establishments has increased from 435,000 to 473,000. The population of France is not 42,000,000, or not a hundred people for every liquor shop.

Few nations on the globe consume so much spirits. Even the Russians with their vodka are scarcely in the same class. The number of 'pubs' in England and Wales which have a population of 35,000,000, is only 94,000, or one-fourth of the number of spirit selling establishments in France. It is true, of course, that the French are not given as a nation to drinking themselves into beastly drunkenness. Their tastes go to light beverages. But the increasing consumption of liquor as illustrated by the total alcoholine has obtained on some social circles, is menacing the nation.

The campaign following the petition to the parliament opened a few days ago at Nancy and meetings will be held in all the 86 departments. Any large reform is likely to come slowly if it comes at all, but the persistence of the movement seems to promise some real progress.

Children Cry FOR FLETCHER'S CASTORIA

"At the battle of Colar Creek," said the veteran captain of a company in one of Virginia's bravest regiments "my company, which generally wasn't afraid of the archfiend himself, grew demoralized and panic-stricken. Despite all my efforts they broke and started pell-mell for the rear."

"As one fellow whom I knew as he came to a lion dashed by me, I saw my revolver, and cried: 'Halt, and return to your place. If you don't, I will shoot you. Blood and fire be hanged! He replied never doubting his prey. 'What's your object to a fellow?'"

Children Cry FOR FLETCHER'S CASTORIA

FOR FLETCHER'S CASTORIA

Poultry Industry.

One of the most opportune appointments that have been made by the present government is that of a poultry expert, whose duties are to advise and assist the farmers of the province in all matters pertaining to the poultry industry. The Minister of Agriculture and his officials early saw the necessity for encouraging and stimulating this industry, recognizing the opportunities for profit which, when properly handled, it presents. For years and years it had been wholly neglected by the Department as being too unimportant to trouble about and no steps were ever taken to encourage or develop it, in any way.

Down to the last decade Canada was a large exporter of eggs, in 1903 no less than seven, and a half million dozens having been sold to other countries. Last year upwards of thirteen million dozens were imported from foreign countries for our own use. It is true that this number, only three hundred dozens came into New Brunswick, but this province draws its largest supply from P. E. I. This is a condition of affairs which is in the highest degree unnecessary; New Brunswick farmers are well able to take care of the home market, and more if they set themselves to do so.—Sackville Post.

Don't You Believe It.

Some say that chronic constipation cannot be cured. Don't you believe it. Chamberlain's Tablets have cured others—why not you? Give them a trial. They cost only a quarter. For sale by all dealers.

The New York lawyer who left \$50,000 to Trinity Church that a bread line might be established, and who stipulated that his name should be on the list of donors, is one of those individuals who do not take much stock in that old saying about not letting the left hand know what the right hand is doing.

Locomotor Ataxia.

"My nerves were very bad, and I could not sleep at night, nor could I control my arms and legs," writes Mrs. B. B. B. of West. Dr. Chase's Nerve Food cured me of what I believe was the early stage of locomotor ataxia or ataxia. I cannot describe what I suffered, but now I am entirely cured.

The Bank of England, although possessing the greatest prestige among financial institutions in the country, or for that matter throughout the world, is not the largest even in England in amount of deposits. The total amount deposited is \$326,770,000, while the London and Westminister Bank claims a total of \$410,500,000; the London City and Midland Bank \$426,000,000 and Lloyds' has \$433,648,000.

When Blood is Poison.

The blood must be filtered, otherwise you are poisoned. If the kidneys fail the liver is overworked, and becomes torpid. By using Dr. Chase's Kidney-Liver Pills you get both these organs right, and also ensure healthful action of the bowels. For this reason these pills are an ideal family medicine. They cure biliousness, constipation, chronic indigestion and kidney disease.

"Well, did he pay you?" asked the wife of a dentist who had been to collect a bill for a full set of false teeth that he had made for a man almost year before.

"Pay me," growled the dentist. "I not only did he refuse to pay me but he actually had the effrontery to gaud at me—with my teeth!"

PILES

Do not suffer another day with itching, burning, bleeding, or any other painful symptoms. Dr. Chase's Ointment will relieve you at once. It is the only one that does so. Get it from J. L. Allen, or Edmundson, James & Co., Limited, Toronto. Enclose 25c in stamps to pay postage.

English Tunnel 30 Years Ago.

Thirty years ago an actual beginning was made on the work of building a tunnel under the English Channel. The work was started at the French end. Buildings were erected and some 2,000 feet of tunnelling done, when English opposition stopped the work. The plant, although somewhat the worse for age, could be quickly restored to effective condition and the whole work of boring the tunnel could, it is said, be completed in five years. From present appearances the work will be completed by 1920.

The publisher of the best Farmer's paper in the Maritime Provinces in writing to us states: "I would say that I do not know of a medicine that has stood the test of time like MINARD'S LIVER PILLS. It has been an untiring remedy in our household ever since I can remember, and has outlived dozens of would-be competitors and impostors."

The First Monotheists.

So far as we are able to discover the Egyptian priests were the first monotheists. They existed in Egypt two kinds of religious teaching, the 'sacerdotal' and the 'heretic,' that for the masses of the people and that for the select few, the little company of the wise. The masses were polytheists, believing in the multi-ude of gods, while the few believed only in one god, of whom Osiris, head of the popular deities, was but a weak reflection.

The Best Cough Medicine.

"I have used Chamberlain's Cough Remedy ever since I have been keeping house," says L. G. Hames, of Marbury, Ala. "I consider it one of the best remedies I ever used. My children have all taken it and it works like a charm. For colds, and whooping cough it is excellent. For sale by all dealers."

Moral Cowards.

There are men who would face the cannon's mouth who are craves in the face of public opinion. What other people may think is the whip that not only keeps the coward in his track but prevents every man from doing what he knows he ought to do. To dare to do and say what we know to be right is the highest mark of moral courage.

Bowing to the opinions of others and sinking around the corner to fear some one will see us do what is right and call it hypocrisy or cant is the very thing that makes hypocrites and apologizers for wrong.

Be man enough to come out on the right side, run up your colors, stand by your guns, and if you go down you will go down with the conscious sense of being a man.

Old Age.

Old age as it comes in the orderly process of nature is a beautiful and majestic thing. It stands for experience, knowledge, wisdom, counsel. That is, old age as it should be, but old age as it often is means poor digestion, torpid bowels, a sluggish liver and a general feeling of ill health, despondency and misery. This in almost every instance is wholly unnecessary. One of Chamberlain's Tablets taken immediately after supper will improve the digestion, tone up the liver and regulate the bowels. That feeling of despondency will give place to one of hope and good cheer. For sale by all dealers.

Up to You.

If you want to be a quitter, it is strictly up to you: for when trouble comes before you it's an easy thing to do. If you drop with each misfortune, if you moan and wail and sob, you'll be ready any minute to retreat and quit the job. But, if you see a trap of fighting blood coursing through your veins, you will see your disappointments, and your I see will gain; you will stand and face your troubles, get a tighter grip on life, and you'll have a proud defiance at the fiends of stress and strife. If you want to be a quitter, keep on grumbling at your fate; turn and run from toil and trouble when you meet them at your gate. You can find some trifling reason for discouragement each day, and it things don't go to suit you leave the ranks and sneak away. But, if you are not a coward, you will scorn misfortune; you will never haul down your colors, and you'll never haul them down. Life's a fight, and you must face it with a courage grim and true; if you want to be a quitter, it's strictly up to you.

Our New Citizens.

"Total immigration into Canada for the year 1913 commencing Jan. 1 and ending Dec. 31, will amount to 412,955, as against a total of 402,654 for the year 1912," said J. Bruce at Winnipeg at the close of the year.

We had hoped," the commissioner continued, that the total would reach 325,000 but owing to somewhat unfavorable conditions, which came into prominence during the past few months, the movement received a slight check.

"During the months from April to November, inclusive, the total immigration into Canada for the corresponding months of 1912 in April, May, June and July of this year, the increase over corresponding months of 1912 ran as high as 25 per cent., but in August, September, October and November there was a decided falling off, as compared with the corresponding months of last year. In August the decrease was 3 per cent., in September 21 per cent., in October 24 per cent., and in November 36 per cent."

TWO WOMEN SAVED FROM OPERATIONS

By Lydia E. Pinkham's Vegetable Compound—Their Own Stories Here Told.

Edmonton, Alberta, Can.—"I think it is most thoughtful of you to thank me for what your kind advice and Lydia E. Pinkham's Vegetable Compound have done for me.

"When I wrote to you some time ago I was a very sick woman suffering from female troubles. I had organic inflammation and could not stand or walk any distance. At last I was confined to my bed, and the doctor said I would have to go through an operation, but this I refused to do. A friend advised Lydia E. Pinkham's Vegetable Compound, and now, after using three bottles of it, I feel like a new woman. I most heartily recommend your medicine to all women who suffer with female troubles. I have the testimonial of Lydia E. Pinkham's Liver Pills, and think they are fine. I will never be without the medicine in the house."—Mrs. FRANK EMBURY, 908 Columbia Avenue, Edmonton, Alberta.

The Other Case.

Beatrice, Neb.—"Just after my marriage my left side began to pain me and the pain got so severe at times that I suffered terribly with it. I visited three doctors and each one wanted to operate on me but I would not consent to an operation. I heard of the good Lydia E. Pinkham's Vegetable Compound was doing for others and I used several bottles of it with the result that I have never been bothered with my side since then. I am in good health and I have two little girls."—Mrs. R. P. CHASE, Beatrice, Neb.
