Tle Silo In Western Canada

On a Western Cattle Ranch

On a Western Cattle Ranch. To raise two head of cattle where only one could otherwise be raised--that is what thousands of farmers all over the American continent have been able to do with the help of allos. It is no wonder, then, that as the lead in Western Canada is becoming more settled, allos should be making their appearance in greater and prester numbers there. Alseedy in Manitobe many armers are beginning to look upon the silt os a me-cessary part of the farm, and more than a hundred of them are in use in vertous parts of the province. Bas-hatchowan and Alberta, together have probably about heif the number as Manitoba, and the number in all the provinces is being slowly but surely added to avery year.
