Woman's Toe Saved by Zam-Buk,

have lost her toe. She says: "I am most thankful I discovered the existence of Zam-Buk. For about pine months I suffered cruelly from the effects of having a corn removed from my little toe, for with its removal a hole remained and my toe was in a terrible state. For months I was un able to wear a shoe and as the toe showed no signs of healing and was in such a shocking condition that Doctor thought it necessary to amputate it. About this time I received a sample box of Zam-Buk and began using it on my toe. The first application gave me the greatest ease from pain and encourared me to give Zem-Buk a feir triel. Two months after commencing with Zam-Buk there was no sign of a hole for the flesh had grown in firmly and all soreness and pains were entirely van-ished. Zam-Buk brought about this healing when all other remedies fail-ed. We find Zam-Buk so valuable that we would not be without a box in the house."
