NO ALCOHOL IN GIN PILLS

Many have wondered how the famous old household remedy, Gin Pills, derived its name, since obviously there could be no spirits contained in pill form.

The origin of Gin Pills can be traced to Gin, which has for a great many years been recognized for its medicinal qualities, particularly its beneficial effects on kidney complaints.

But in the first place there are many who have conscientious objections to taking alcohol, even as a medicine. Secondly, the curative agent of Gin operates in spite of the alcohol, not because the alcohol is a help to the cure.

Investigations were made to determine just what it was in Gin that tended to relieve Rheumatism, Lumbago, Sciatica, Backache, Swollen Joints, Constant Headaches and all disorders arising from the kidneys, bladder and urinary system.

This active agent, separated from the alcohol, was then combined with other diuretics and given the name of Gin Pills, for which a demand has grown greater than for any other medicine in Canada. Gin Pills have a wonderful record of success and anyone applying to the manufacturers can obtain copies of many of the testimonials received.

Gin Pills are sold by all dealers everywhere on a strict guarantee of satisfaction or your money back. They are 50c. a box or 6 boxes for \$2.50. AN OPERATION AVERTED

Philadelphia, Pa.—"One year ago I was very sick and I suffered with pains in my side and back until I nearly went crazy. I went to different doctors and they all said I had female trouble and would not get any relief until I would be operated on. I had suffered for four years before this time, but I kept getting worse the more medicine I took. Every month since I was a young girl I had suffered with cramps in my sides at periods and was never regular. I saw your advertisement in the newspaper and the picture of a woman who had been saved from an operation and this picture was impressed on my mind. The doctor had given me only two more days to make up my mind so I sent my husband to the drug store at once for a bottle of Lydia E. Pinkham's Vegetable Compound, and believe me, I soon noticed a change and when I had finished the third bottle I was cured and never felt better. I grant you the privilege to publish my letter and am only too glad to let other women know of my cure."—Mrs. THOS. MCGOWAN, 2432 Hartville Street, Phila., Pa.

LISTEN TO THIS! SAYS CORNS LIFT RIGHT OUT NOW

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezeone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts out with the fingers.

It is a sticky ether compound which dries the moment it is applied and simply shrivels the corn without inflaming or even irritating the surrounding tissue or skin. It is claimed that a quarter of an ounce of freezeone will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn or callus. You are further warned that cutting at a corn is a suicidal habit.
