## D. D. D. In Hospitals; Standard Skin Cure

How many hospital patients, suffering from the frightful itch, the raw scorching pain of skin disease, have been soothed to sleep by a soothing fluid washed in by the nurse's hands? That fluid is the famous D. D. D. Prescription for eczema.

THE SUPERVISING NURSE of one of our prominent Catholic institutions (name of nurse and institute on application), writes regarding a patient: "The disease had eaten her eyebrows away. Her nose and lips had become disfigured. Since the use of D. D. D. her eyebrows are growing her nose and face have assumed their natural expression."

How many eczema sufferers are paying their doctors for regular treatment and are being treated with this same soothing, healing fluid?

DR. GEO. T. RICHARDSON writes: "D. D. D. is superior to anything I have ever found. Soft and soothing, yet a powerful agent." To do the work, D. D. D. Prescription must be applied according to directions given in the pamphlet around every bottle. Follow these directions—and see!

And it certainly takes away the itch at once—the moment the fluid is applied. The skin is soothed—calm ed—so thoroughly refreshed—delightfully cooled.

All druggists of standing have the famous specific as well as the efficient D. D. D. Skin Soap.

But we are so confident of the merit of this prescription that we will refund the purchase price of the first full size bottle if it fails to reach your case. You alone are to judge.

## Practical Fashion Hints

In planning the little one's wardrobe, whether for school or more dressy occasions, it is well to remember that children grow rapidly. While materials for frock or suit are not expensive, there is no reason in the world why they should not be made to do for more than one season. In wash materials especially, it is wise to allow one-half inch at all seams for shrinkage; the allowance for the natural growth of the child may be arranged in various ways. An inch or two may be left on the sleeves by laying in a pleat or two at the cuff, or in case of short sleeves, halfway between shoulder and elbow; on the skirt, a wide ruck may be taken in the inside of the hem, to be let down when necessary. No. 8000 is a long-waisted blouse dress for a child of from 8 to 14; it has a set-in sleeve, a pretty diagonal closing and a pleated skirt attached to a separate underskirt.

For a child of 12, this pattern requires 4 1/2 yards of 36 inch material, with 1/2 yard of contrasting goods for the collar, cuffs and belt. The underwaist requires 5/8 yard of lining or muslin.

The pattern is cut in 4 sizes; 8 to 14.

This Is a Perfect Pattern. Be sure to state right size, passing the tape around the fullest part of the breast well up under the arms.

The pattern may be obtained by sending name and address, pattern No. and size and fifteen cents to DAVID SPENCER LIMITED.
