CHICNECTO POST AND BORDERER

SACKVILLE N. B. OCT. 27, 1892.

When the ballots were counted on Saturday it was found that the govern ment had been sustained, but that it leader and his ceterie of followers had been defeated in the fight in their own county. It was also found that West-morland had been untrue to her record and had elected three of the four government men offered, These constitute the greatest surprises of the day. It has always been conceded that any opposition to Mr. Blair in York would fight against great odds. To that county the late premier has been a most lavish provider; which fact coupled with Mr. Blair's great personal popularity, naturally made the county appear strongly government. But the people of York have had more oppor-tunity of seeing how affairs are administered at the capital than those a this distance and have given their ver dict according to their approval or disapproval. One act which disgusted Mr. Blair's personal friends was the removal of Mr. Crockett from the office of Chief Superintendent, an act which for wanton tyranny and personal bitterness can find no equal out-

side of the dominion of the Czar.

The government has the majority of members, but as that government has been largely a one man govern-ment and that one man Mr.Blair, who transpired what will be done. There have been two seats talked of for him one in this county where one of the his willingness to resign to give Mr Blair a chance and in Queen's. Mr. Emmerson has signified his willingness to turn Albert over to his fallen chief if it will turn. These offers if made a month hence might be credited. with a flavor of sincerity, but when made on election night when the elected member is flushed with glory and his heart is twice its natural size. it goes for little if not accepted at once. There is another view of the case. It has been felt that for years Mr, Blair has been too much of a leader. He led on all sides. He pushed from behind as strongly as he pulled in front and some of his c leagues did not take kindly to h vigorous rule. Now that he is down as out, they may feel a certain sense relief and manifest no great anxiet to get him back again. The fact also remains that Mr. Blair has played to well the part of the heavy villian been a single piece of political rascality or jobbery that he had not engineered. His acts have given New Brunswick a name which is the reverse of enviable and his colleagues verse of enviable and his colleagues realize that with him out of the control the moral and financial credit of the province would be favorably enhanced and the opposition less bitter.

As to Westmorland there is little County-the Coursels of the county-the

people may be detuded with the idea that it was the voice of the people which was heard on Saturday; but no greater error could exist. The ho est, clear thinking people of Wes morland are no fonder of Northur berland deals, Leary jobs, sham i bogus reforms and bridge steals th are the people of St. John or Yor. The voice that was heard was swe with the silvery notes from Wood lawn and Fredericton. That delic ious melody which soothed the commercial voter in 1891 burst into fu chorus in 1892 with all the irresistib force of its persuasiveness. The of boodle is usually the first utterar of the defeated in elections, yet w the full force of that fact in mind have it to state that never has to county witnessed a carnival of c ruption, which for systematic and liberate defiance of law, can equal the given by the government agents on Sa urday. In Moncton the main army congregated and open purchase a personating were the order of the de prosecuted. In Sackville the boodling was done upon the most improved principles and was given a shade of business like respectability. It may be complimentary to the local government werkers or it may be otherwise, but gentlemen from outside handled the funds in the seclusion of a private of the control There is a limit to human endurance office in the building and not a coppe was allowed to touch the fingers se who in previous contests had hand in the scrimmage. One clear cas of perjury is reported and we learn it is the intention to put the accused on the defensive at an early date.

DECLARATION DAY.

Yesterday was Declaration Day for Westmorland and the returning of ficer declared J. W. Y. Smith, Amass Killam, Henry A Powell and W Woodbury Wells elected, according to the figures given elsewhere. A deter-mined effort was made to have the Solicitor General counted in but it failed to work, and Mr. Richard remains in private life. At the close the candidates thanked the electors for the support accorded them in the contest. Mr. Richard spoke bitterly of his opponents and complained of the canvasses which had been made against him. He said he was not beaten and in the course of a few weeks would come before the people Just what he meant again. Just seem to know.

In St. John county, McKeown and McLeod tied and Sheriff Harding gave the casting vote in favor of the government candidate, Mr. McLeod. In Restigouche, Murray, opposition is in and in Carleton Dr. Atkinson.

THE ELECTIONS.

The provincial general local election was held on Saturday in all counties with the exception of Madawaska where an independant was returned by acclamation and in Gloucester where by reabson of a delay in the issue of the write the election-was not held until Monday. The results of the polling had two surprises, one the defeat of the Attorney General Blair and his whole ticket in York county, the other was the overturn in this county. The results by; counties corrected up to date are about as follows:

A few months ago Mr. Currie-published a letter in the St. of the gravest character against Mr. Crisp and accusing him of being guilty of the crime for which he has suffered. Mr. Crisp in a manner bluffed these charges off and Mr. Currie renewed his attack and asked for an investigation. Strange as it may appear that when Rev.
