## DECIMAL CURRENCY.

The Report of the Select Committee on The Report of the Select Committee on Decimal Coinage, appointed by the motion of Mr. William Brown of Liverpool, has just been pringerd, and is a clear and concise document. It appears as might have been expected, that all the witnesse examined were unminous respecting the advan-tages that would attend the introduc-tion of the decimal system, and the only

of the decimal system, and the only revived and he died in June. This is liter open question among them was with regard to the relative case and superiority of the various methods suggested for its accom-plishment. The Committee point to the ally true. various methods suggested for its accom-plishment. The Committee point to the fact of England having permitted herself to remain without this improvement in the face its general adoption in the different countock place yesterday (Friday) at the Auc-tion Rooms of Messre. Wakefield & Coste Its general adoption in the different coun-tries of the world, among which unbroken evidence of its value has since been afford-ed by the constant tendence to extend its 2002, and the lowest of £18 6s per acte. ed by the constant tendency to extend its Of the 67 lots into which the village is laid application, not only in the case of money out, 37 were sold for the aggregate sum of ed by the constant tendency to extend its

but also as respects weights and measures; £1043 15s. and they then deal with the only two considerations that require to be inct for its introduction. One of these is the popular prejudice, resulting from ignorance and in-dolence, against alterations of any kind, and the other is the necessity of rearranging the terms of all pecumary obligations expressed in coins which would be about be done in a ledge of rocks, was comewhat to other is the necessity of rearranging the terms of all pecumary obligations expressed in value by the new arrangement. Nother of them, however, presents the slightest diffi-culties beyond such as arational people would be ashamed to recornise. The first is absiderations that require to be met for its A LEAP AT THE FALLS .- One day las

be ashamed to recognise. The first is ab-solutely below notice, and although the competilous situation. mittee while they rightly designate it as a matter upon which it is out of the question to The French Emperor and the Empress have recently taken to shooting at St. Cloud. On Wednerday their Majestics argue, seem to consider it the more serious of the two, there is reason to hope that, in

gence of the working classes, more especi-cily as they admit that the witnesses who have speken of the probable feeling of these parties state a conviction that the proposed change would be quickly be understood and parties state. The Committee mention at the same time precedents which should re-tures, but affinished with hurrabs by the con-
