Man Killed on Train.

This forenoon as some boys, residents of Kelligrews, were going up the track to the swimming pool, when near the railway bridge they found the body of man lying on the track in a horribly mutilated state. The body was about midway between the station and the bridge. Both legs were cut off, the head was severed from the body and the remains were in a terrible state. The man evidently fell from one of the cars of the Bruce express which arrived at noon. The conductor was apprised of the affair at Donovan's, and making enquiries found that a man named Clarke, of Springdale Street, who got on at Placentia Junction, was not seen on the train for some time. He was in company with a man named Kennedy, of Springdale Street, and it is now known that he is the unfortunate. He must have fallen between the cars while passing from one to the other. The authorities took charge of the body, which will be forwarded here.

For this condition no better means of relief can be found than by the free use of Cream of Lilies. A portion of this rubbed over the face and hands at night will soothe and soften the skin and remove any burning sensation or stiffness from the parts in question. Cream of Lilies is a great boon to ladies. Price 25c.

Canadian Bank of Commerce

By the opening of a branch of the Canadian Bank of Commerce in this city, our business men are afforded additional facilities for conducting their commercial undertakings and others are afforded also one more means of depositing their monies for interest or the transaction of their trading operations. By reference to the advertisement which appears in our issue to-day it will be seen that the capital of the Bank is \$15,000,000, with a rest of \$12,500,000, and is one of Canada's strongest financial institutions. The head office is at Toronto, but it has branches in the Dominion at points extending from Dawson City in the Northwest to St. John's in the East. It has branches in the financial metropolis of the world, London, and in New York, San Francisco, Seattle, Portland, Ore., and Mexico.

It would appear therefore that the Bank of Commerce has very large means and ample facilities for conducting a large banking business. In addition to the main department, the Canadian Bank of Commerce has a Savings Bank Department, which receives deposits of \$1 and upwards, and allows the current rate of interest.

The St. John's branch is conducted on Water Street, where Mr. Hutton conducted his musical store. The manager is Mr. F. G. Dench, whose geniality has created a favourable impression since his arrival in the city. We predict for the above bank a big share in the general banking business of Newfoundland.

Back From the Wreck.

The s.s. Fogota got back from the wreck of the Wilhelmina at 5 p.m. Tuesday with 150,000 feet of spruce deals, salvaged from her, and as passengers Hon. M. P. Cashin, W. Crossie, Tasker Cook and R. B. St. Hill. The Wilhelmina is ashore at Sculpin Cove, 5 miles east of Peter's River, and is a hopeless wreck. The Fogota arrived at the scene at daylight Monday, the water was smooth, and with the aid of Trepassey men the crew had the boat loaded by 10 that night. The Fogota went to Peter's River Tuesday morning to get two of the stranded ship's boats, but they being heavy and no men about to help put them on board, they were left behind. Those who were first at the ship, it is reported by the Fogota, stripped the saloon, took the captain's nautical instruments and personal belongings, and Magistrate Hogan is trying to recover them. The ship has on board 2 1/2 million feet of deals. The Amphitrite is freighting it to Cape Broyle and 40 sail of craft were alongside at salvage work when the Fogota left, and will bring the cargo to Trepassey.

On Insiee Track.

The article which we published on Tuesday from the N. Y. Fishing Gazette about concessions to the Booth Co., appeared also in the Gloucester Times and was republished from the latter paper by the Halifax Morning Chronicle, with the sub-heading, "The Chicago Firm is reported to have the Inside Track on Newfoundland Bait." Let the Government publish the whole agreement and fishermen will be able to judge for themselves, what the Booth Company is getting.

At Black Brook, Labrador, an Eskimo, his son and daughter died on the 10th June after partaking of seal, which it is thought contained some poisonous matter. DUBIOUS

About What Her Husband Would Say

A Mich woman tried Postum because coffee disagreed with her and her husband. Tea is just as harmful as coffee because it contains caffeine, the same drug found in coffee. She writes:

"My husband was sick for three years with catarrh of the bladder, and palpitation of the heart, caused by coffee. Was unable to work at all and in bed part of the time.

"I had stomach trouble, was weak and fretful so I could not attend to my house-work—both of us using coffee all the time and not realizing it was harmful.

"One morning the grocer's wife said she believed coffee was the cause of our trouble and advised Postum. I took it home rather dubious what my husband would say—he was fond of coffee.

"But I took coffee right off the table and we haven't used a cup of it since. You should have seen the change in us, and now my husband never complains of heart palpitation any more. My stomach trouble went away in two weeks after I began Postum. My children love it and it does them good, which can't be said of coffee.

"A lady visited us who was usually half sick. I told her I'd make her by a cup of Postum. She said it was tasteless stuff, but she watched me make it, boiling it thoroughly for 15 minutes, and when done she said it was splendid. Long boiling brings out the flavor and food quality." Name given by Canadian Postum Co., Windsor, Ont.

Sagona Here.

The Sagona, Capt. Parsons, arrived from Labrador at 8.30 a.m. to-day. She got down to Holton on Friday last. She met a heavy jam of ice all the way down, and north of Holton 30 water is visible. The Sagona "ordged her way into all the ports of call, and loosened the rivets in her bows doing so. Most of the Labrador craft here got down the coast and have "barabored out of the ice at different places. At Holton and other places the freight and mails had to be landed on the ice, and the Marconi men for the new wireless station there had to walk ashore on the floe.

FISHERY REPORT.

At Bolster's Rock, Francis Harbor, Spear Harbor and other ports up to Battle Harbor there is an excellent sign of fish, traps getting 4 and 5 qts, but there is no satisfaction in fishing, with twice owing to the ice. At Battle Harbor the fishery is good, and Shannahan at Bolster's Rock has 25 qts ashore. The officers of the ship think that the Labrador fishery when the ice clears off, will be a big one. Captain Parsons is in along the coast. Her passengers were Mr. Stephany and wife and 3 children, Rev. Mr. Weir and Capt. Marshall.
