

Reformed Church in and around Preston was given and read. After lengthened consideration it was agreed that the Committee be re-appointed with instructions to attend carefully to the field, as also that at New Hamburg, and to the work of missions among the German within the bounds, as a hopeful one, and the Clergy was directed to apply to the Home Mission Committee for a grant of not less than two hundred dollars a year in the event of an efficient missionary being procured. From the Report it appeared that \$200 might be expected from Preston and \$150 from New Hamburg. Mr. A. Schroeder, a minister of the Reformed Church of the United States, applied to be received as a Minister of the Canada Presbyterian Church, and produced a certificate of full and regular standing. The application was directed to lie on the table till Mr. Schroeder's designation, which was promised, was received. The Committee on the German Mission was re-appointed with additions, and instructed to prepare a scheme for raising funds on its behalf, and report at the adjourned meeting in West Fauschich. A reference from the Kirk Session of Knox Church, Elora, for advice in a case of marriage with a deceased wife's sister, was not sustained on the ground that it was not in writing. The Clerk reported the claims against the Presbytery and each congregation for the Assembly Expense Fund. He was instructed to call the attention of every congregation that had not paid the full amount assessed last year to the deficiency. An extract minute from the Presbytery of Stratford regarding the mode in which New Hamburg was receiving supply of sermon was read, and the reply of the Clerk to the same, which was approved. The Home Mission business, and some others of a general interest having been disposed of, the next ordinary meeting was appointed to be held in Knox Church, Galt, on the second Tuesday of January, 1875, at 9 o'clock, a.m., the roll called and marked, and the sederunt closed with the benediction.

THE GREAT SUPERIORITY OF DR. WHEELER'S COMPOUND ELIXIR OF PHOSPHATES AND CALSAYA consists in its being purely physiological in its action in restoring all forms of debility by supplying the waste of tissues resulting from mental and muscular exertion, or consumption, disease, or prostration and general debility. For building up constitutions of low vitality from scrofulous, or consumption, disease, or impaired by disipation and bad habits, it is unequalled, as it immediately imparts energy to the digestive apparatus, and creates healthy blood, toning and vitalizing all the organs of the body in the same manner as our daily food. Phosphates are the chief compounds of Phosphorus assimilated by the system, and are Nature's agents for maintaining the vital powers.

The Simplest, Cheapest, and Best

Marking Apparatus in the World

For Marking COTTON, SILK,

WOOLEN, and LINEN, is

PAYSON'S INDELIBLE INK.

Used with a Common Pen with-

out a preparation.

This ink flows perfectly: will write as easily on the finest paper as on ink on paper. It does not dry up, and retains its virtue longer than any other ink known. It will not injure the finest fabric. PAYSON'S INK has endured the test of forty years, and is now the most popular ink in existence, and is unrivalled for uniformity of quality and durability. It will mark more neatly, quickly and indelibly than any other apparatus. It requires no preparation of the fabric.

Price, 37 cts. per bottle.

Mr. Torrance's and the Town Line. Also,

A NUMBER OF VALUABLE FARMS NEAR GUELPH.

PROTECT YOUR BUILDINGS

Which may be done at one-fourth the usual Expense, by Using

Glines' Patent SLATE ROOFING PAINT!

AGENTS WANTED IN EVERY TOWN.

A Roof may be covered with a very cheap shingle, and by application of this slate may be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better and lasting longer than new shingles without the slate, for ONE THIRD THE COST OF RE-SHINGLING. The expense of slating new shingles is only about the cost of simply laying them.

The Paint is Fire-Proof

against Sparks or Flying Embers, as may be easily tested by anyone, and appears from the fact that Insurance Companies make nearly the Same Tariff for Slate Roofs. For Tin and Iron it has no equal, as it expands by heat, contracts by cold, and NEVER CRACKS NOR SCALES. For Fences it is particularly adapted, as it will not corrode in the most exposed places. Roofs covered with Tar Sheathing Felt can be made water-tight at a small expense. The Slate Paint is

EXTREMELY CHEAP!

Two gallons will cover 100 square feet of shingle roof, or over 400 of tin or iron. No Tar is used in this Composition, therefore, it does not effect the water from the roof, if turned off from the easterly before the first few rains. On Decayed Shingles it fills up the holes and pores, hardens them, and gives a new, substantial roof that will last for years. Curled or Warped Shingles it brings to their place and keeps them there. It fills up all holes in tin or felt roofs, and STOPS THE LEAKS. The color of the slate when first applied is dark purple, changing in about a month to a light uniform slate colour, and is, to all intents and purposes, SLATE. The Paint has a very Heavy Body, but is easily put on, and, although a slow dryer, rain will not affect it in the least one hour after applying.

ROOFS EXAMINED. ESTIMATES GIVEN.

And when required will be Thoroughly Repaired.

Orders Respectfully Solicited.
