LOCAL MARKET.

London, Tuesday, May 16.

For a mid-week market the attendance was in the lower limit, such as hay and oats, but the small lines were not up to the average, for as supply was concerned, sales were brisk for all the offerings except hay, which was very dull of sale. There were no changes in prices of any note.

Grain—About 15 loads of oats were offered; sales were made at \$1.25 to \$1.27 per cwt, mostly at \$1.24 and \$1.25. One small load of barley sold at \$1.02 per cwt. A couple of loads of wheat went at \$1.15 per bushel.

Hay and straw—Hay continues to be offered very freely in fact, the market has been over-supplied, the farmers keeping in mind the heavy loads that most of the buyers want, as new hay will be on the market in a few weeks; there were 22 loads on the market, and sales were slow, at \$7 to \$8.50 per ton. Straw was sold, at \$6 per ton.

Very little butter, eggs or apples were offered; there were no changes in prices. Vegetables and fruits—Potatoes sold well today at 20c per bag wholesale and 25c to 30c retail; there was not a very large quantity offered; spinach sold at 15c per bushel; rhubarb was dull at 25c to 30c per dozen.

Dressed Hogs—About 20 carcasses were offered; sales were brisk, at 19 and 20c per lb; prices are expected to go lower.

Poultry—The market was quiet, spring chickens which would weigh about 2 lbs. to the pair, sold at 8c; turkeys, alive, 12c to 15c per lb, and 14c to 15c per lb dressed.

Butchers' Meats—Not a great deal of offered.

STOCK MARKETS.

H. C. Beecher, stock broker, Bank of Commerce building, received the following by private wire from Bartlett, Frazer & Carrington today:

New York, May 16.—Noon.—The somewhat lower market received from London this morning were reflected in our opening by a sympathetic decline here, but with no particular pressure to sell, but on the other hand the buying power seemed to be strictly limited. Manipulation was apparent in St. Paul, and the heavy volume of opinion that this stock was being made strong in order to facilitate liquidation in other departments. There was what was considered good buying in Smelters, but there was also heavy selling, and there was a feeling that insiders were marketing cautiously some of the stock, which they had brought some days ago in order to support it. As for the future of the market, it seems likely that it will give a better character will continue, and that it will be more attractive to the room trader than to the outside public.
