

This number of the *Journal* has been delayed a week, that the proceedings connected with the opening of the Winter Session of the Normal School might be reported.

HISTORY OF CANADA FOR SCHOOLS.

THE Publishers would call the attention of the heads of Canadian public and private Schools to the excellent and full epitome of the

HISTORY AND CHRONOLOGY OF CANADA,

Nova Scotia, New Brunswick, &c., which is contained in the Second Edition (just published) of the *Geography and History of British America*, and of the other Colonies of the Empire, by J. George Hodgins, M.A., designed to accompany two large maps prepared by the Author.

To this second Edition have been added Sketches of the General Geography of Europe, Asia, Africa, America and the United States, &c., &c., making the work a most attractive Text-Book for public and private schools.

The new Edition contains 80 superior Engravings. Cloth, gilt lettered: pp. 128. It may be ordered through any bookseller. Price 60 cents each, \$3.50 per doz. Toronto: Maclear & Co., and Wm. F. O. Cavendish. Montreal: Benjamin Dawson & Son. Toronto, September 17th, 1858.

HICKLING, SWAN & BREWER,
131 Washington Street, Boston.

Sept 16—6m.

SECOND EDITION—PRICE 1s. 10jd.
REID'S SCHOOL GEOGRAPHY
FOR BRITISH AMERICA.

THE author solicits the attention of School Commissioners, Teachers, &c., to this work. He has prepared it with much care, with the view of supplying an acknowledged want—viz.: a School-Book, which, along with the General Principles of Geography, and the Geography of the great divisions and countries of the world, shall give full information on *BRITISH AMERICA, the UNITED KINGDOM, and the UNITED STATES*. One fifth of the work is devoted to British America, including ten pages on Canada, seven on Nova Scotia, and fourteen on Newfoundland, Prince Edward Island, and the general features of British America.

Some such work is considered an educational necessity in every country. As a Teacher, the author found the want of such a book, and has now used it for two years, as a text-book for his own classes, with great advantage. It has also been introduced in other Schools. As it supplies (which no other single work does) the leading geographical matter essential for the Teacher's work in British America, whatever method of teaching be adopted, he has published it at his own risk, believing that it may prove generally useful, and relying on support from all who are interested in the improvement of Education in these Provinces.

OPINIONS OF THE PRESS.

The first edition was a vast improvement on what we previously had.—The present one embraces a larger amount of information, and much new matter not before published in any similar work.—*Sun*.

— Contains a greater amount of correct information relative to the American Continent in general and the British Provinces in particular, than we ever before recollect to have met with in any similar work.—*Antigonish Casket*.

— This most useful School-book. It will supply a long felt want amongst the educationists of this Province.—*Morning Chronicle*.

Meets our hearty approval.—*Western News*.

Deserving of the thanks of this community.—*Recorder*.

The School Geography for Nova Scotia.—*Yarmouth Tribune*.

— Will be universally adopted in the Schools of this Province.—*Morning Journal*.

— A book of facts and principles,—containing just the things which are required in a text-book for general use.—*Christian Messenger*.
See also *Express, Wesleyan, Cape Breton News, Liverpool Transcript, &c.*

IN THE PRESS,

BY THE SAME AUTHOR,

The Principles of Arithmetic,

with numerous examples for MENTAL EXERCISE.
