Owing to the fact that the cost of conveying the mail by air does not exceed the cost of conveying it by land, the Administrations concerned shall fix a uniform Air Mail fee for the whole of the world, which shall be proportionate to the distances, in accordance with the provisions of Article 5.

3. This right applies only to the other European countries for traffic with the countries referred to in § 2.

4. Owing to the special geographical situation of the U.S.S.R., the Administration of that country reserves the right to apply a uniform Air Mail fee throughout the whole territory of the U.S.S.R. for all the countries of the world. This shall not exceed the actual expenditure for the conveyance of the correspondence by air.
