

PREFACE

Working Papers, the results of research work in progress or a summary of a conference, are regarded by the Institute as of immediate value for discussion in limited numbers - mostly to specialists in the field. Unlike all other Institute publications, these papers are published only in the original language.

The opinions contained in the papers are those of the participants and do not necessarily represent the views of the Institute and its Board of Directors.

Colonel Gordon Sharp was a research fellow at the Canadian Institute for International Peace and Security (CIIPS) in 1982-83, and is currently the Director of the Institute for National Defence and Development (INDD) Headquarters. All views and analyses presented in this paper are based on information available from public sources and do not necessarily represent the perspective and opinion of the Department of National Defence.

Dr. George Lindsey is a visiting senior research fellow at CIIPS and was formerly the Director of the Department of National Defence Operational Research and Analysis Establishment (OR/A).

Acknowledgements

In the course of the research for this project the authors were accorded valuable consultations with representatives of MacDonald Dettwiler (in particular Mr. Murray Macdonald), Spar Aerospace Limited (in particular Dr. F.J.E. Osborne), and Canadian NORAD Region (in particular the Commander Major General J.D. O'Brien). They also wish to acknowledge the constructive criticism of the editorial staff at CIIPS and the benefits of the space indoctrination course provided by the Canadian Forces School of Aerospace Studies, commanded by Lt. Col. David Peart, and the assistance of Mr. Dan Lamb, also of CIIPS.
