In selecting a Life Assurance Company ✓

Select one that is Prosperous and Progressive.

Several years ago **The Sun Life Assurance Company of Canada** adopted as its Motto the words "PROSPEROUS AND PROGRESSIVE."

Let others speak of the applicability of the Motto.

Prosperous

(From "The Insurance Press," New York)

"The income of the Sun Life of Canada has increased more than 300 per cent. in ten years. The growth of its assets in the same period has been about 400 per cent. The amount of its policies outstanding has multiplied almost three times since 1892."

Progressive

"The American Exchange and Review" of Philadelphia recently said: "The Sun Life of Canada though conservatively managed is eminently progressive. It issues all kinds of policies within the limits of safety. It pays its claims promptly, and regards the interests of its policyholders as a sacred trust."
