The number of Marriages in London is greatly in excess of other cities, as many persons, who reside elsewhere, go there to be married.

Before proceeding to examine Table I, it is well to state that a Census of Montreal was made in 1844, 1852, and 1861, From 1844 to 1852 the annual rate of increase was nearly 3.5 per cent. and from 1852 to 1861 it was 5.1 per cent. It has been thought proper to calculate the increase at the average rate, as it does not materially affect the general average. A calculation, made from the list of voters, and the number of houses

* August 20th—Eight Clergymen have not yet sent in their registers. In 1867 they recorded 134 Marriages and 403 Baptisms.

† In the abstract of marriages and baptisms made by the Prothonotary for 1864, there is an omission, which caused the alteration of the figures for that year.
