The reports regarding the condition of the famous raider are conflicting, but it is known that a majority of them concur that it is serious.

SPAIN WANTS WARSHIPS. Newcastle-on-Tyne, Nov. 30.-From celiable sources it has been learned that the Spanish Government asked Chili to sell the new cruiser Esmeralda, 5.000 tons, 23 knots, also the small battleship Congresso, both of which will be ready to sail for Valparaiso next The Chilian Cabinet informed the Madrid Cabinet, through the medium of the Spanish Minister at Santiago, that the proposal could not be entertained. Similar advances by Spain are also made looking to the purchase of four fast torpedo catchers built for Chili at Yarrow's yard on the Thames.

WILLIAM WANTS A BIGGER NAVY. Berlin, Nov. 30.-The Government organs have hitherto denied that a

large increase in the navy was intended, and the figures of the naval budget were so juggled that it looked as if the Government demand was not in excess of those of former years. searching analysis of the figures, however, reveals the fact that the Reichstag is really asked to sanction an increase of about 200,000,000 marks. From the Reichstag budget it appears that the deficit in the accounts of Colonial Office with the colonies is marks. Africa alone shows a deficit of 2,690,000

The Earl of Elgin, Viceroy of India, arrived at Baroda on a visit to the Gaikwar, or native ruler of the state. The inhabitants turned out en masse to welcome the Viceroy and to wife's death to Brennam, now in jail, off without incident of note until the end of the ceremonies. Then the crowd made a rush for the park gates, which became immed with which became jammed with people. A footing in the surging mass of human-

CROP PROSPECTS. London, Nov. 30 .- The Mark Lane Express today, commenting on the crop prospects, says: "Severe frosts in France and Central Europe have stopped plowing and sowing, and we anticipate a somewhat reduced wheat acreage in the entire region between the Vistula and Bay of Biscay. Winter has set in throughout Russia, the Sea of Azov was closed to navigation on Nov. 24, and navigation of the Baltic is dangerous on the northern and eastern coasts, where there is already much ice. Owing to the rainfall in India the deficiency in the wheat acreage is reduced. But, while famine no longer threatens, a scarcity seems bound to be felt until the spring of 1898. English wheat maintains a good price in London, but the country markets are less firm. The cause of this is clear. In the counties last week, 166¢684 quarters of English wheat were offered for sale, against 69,530 for the same week of 1895."
