SPORTS POSTPONED

ST. THOMAS, Oct. 12.—The annual field day of the St. Thomas Collegiate Institute scheduled for today will be held on Monday. Poor weather was the reason for postponing the sports. The London Collegiate rugby team will come here on Monday to play a return game with the St. Thomas squad. This game was to have been played off this afternoon as the feature event of the field day.

THE SPORT-LIGHT

By Grantland Rice. (Copyright). Special District Rights Secured by The Advertiser From the New York Tribune.

"I've contended," writes a bystander, "that the American League, as a league, is far stronger than the National. To prove this, I claim that if an all-star club were selected, at least two-thirds of these would be American Leagueers."

This latter arrangement would hardly prove the claim, though it might be used as stout circumstantial evidence.

In regard to the other, well, here's one selection from both leagues:

American League	National League
Schalk	Pitchers
Cleto-Ruth	Catcher
Sisler	First Base
Collins	Second Base
Chapman	Shortstop
Cobb-Speaker	Outfield
	Rough

Of the twelve men selected here the American League gets eight and the National League draws four, the odds being precisely 2 to 1.

It might also be noted that from the above twelve selections no fewer than ten come from western clubs—Alexander and Ruth being the sole representatives out of the east.

DUFFY'S WORLD SERIES DOPE.

During the first few world series games we ran into Duffy Lewis, who was engaged in his first capacity as a world series spectator. Duffy has been too busy engaged before playing in these post-championships to watch them.

"Our Boston club," remarked Duffy, "always figured each world series game as nothing but an ordinary ball game. We never tried to play better ball than we knew how. We stuck to about the same system and the same pace we had used all year. The White Sox followed this system at the start. The Giants in those first games were over-anxious."

THE CARELESS TRIBE.

Among the leading batmen of late years Joe Jackson and Nap Lajoie have excelled in careless and carefree attitudes at bat. Cobb is a trifle nervous and Walter Speaker is more or less tense and watchful. Roush faces a pitcher with determination and watchfulness. Sisler is on guard and get for the blow, but Jackson, like Lajoie, is loose jointed, careless, nonchalant and all the rest of it, denoting a mixed attitude of serenity and contempt. Both Jackson and Lajoie have always seemed to grip the bat loosely. Neither was ever in any sense tense or overly expectant. The lightning-up process arrived only at the actual moment of stepping into the pitch with the wallop on its way. Zim has this attitude at times, but when Heinie becomes harassed, he shows it, whereas Lajoie once went eleven games without getting a hit, and at the end of the eleventh game was just as carefree and careless as he was when getting his two blows a day.

This is the first year where a losing football coach can point with pride, not so much to the scores, but to the list of his 1916 staff serving at the front. This is the first year in football history where overwhelming defeat may be a greater badge of honor than overwhelming victory. It is hardly a season for boastful acclaim upon a gridiron showing made through the return of veterans.

PRESENTED WITH BOWLS.

ST. THOMAS, Oct. 12.—W. H. Harry, winner of the single bowl game, was presented with a handsome pair of bowls at a gathering of bowling enthusiasts at the G. T. R. assembly hall this evening.

GIBBONS OUTCLASSES IN BOUT AT ST. PAUL.

St. Paul, Minn., Oct. 12.—Mike Gibbons proved too strong for Frank Mantell of Dayton, Ohio, last night, and won a technical knockout, when Referee Hugh McMahon stopped the bout in the third round to prevent further punishment. Gibbons won all the way, and at no time did Mantell have a chance. The St. Paul Phantom danced in, delivered a stiff right to the crown, and danced away again, leaving Mantell practically helpless. The decision of the referee was popular with the crowd. This was Gibbons' last public appearance for some time, as he leaves for Camp Dodge, Iowa, where he will instruct members of the new national army in boxing.

NO FEAR OF RAIN AT CHICAGO THIS AFTERNOON

Chicago, Oct. 12.—The weather for the fifth world's series baseball game today was clear and cold. It promised to be slightly warmer for the afternoon. There was no fear of rain.

GET DATA ON COAL.

SARNIA, Oct. 12.—Although no definite statement could be secured, it is probable that the city council will take some action in investigating the coal supply in this city. As previously announced in The Advertiser, the dealers have been requested to forward data on the shipments received last year, as well as the present year, to the deputy fuel controller at Ottawa, and if the council decides to investigate the tonnage now in the city and on order, figures may be available. Dealers are very reluctant to furnish such data, more than a mere statement that the orders far surpass the supply.

TEN-CENT MILK AT STRATFORD NOW

ST. THOMAS, Oct. 12.—An advance of two cents per quart in the price of milk is announced here, and milk now retails at ten cents. Members of the purchasing committee of the city council are planning to take the matter up with the milk dealers.

OHIO IS ASSURED OF SUFFICIENT COAL

CLEVELAND, Oct. 12.—Federal Fuel Administrator Dr. Harry Garfield was here today, and assured the Ohio people that there would be no coal shortage at any time during the winter. Mr. Garfield came to Cleveland to make a tour of inspection of the coal fields, and to make predictions of freezing temperatures by the local weather bureau. Mr. Garfield made this decisive statement: "We have got to get the coal; we have the power to get it; we are going to get it."

Immediately after arriving here, Mr. Garfield went into a conference with the coal committee of the chamber of commerce.
