REPUBLIC MOTOR CO. WILL LOCATE LARGE PLANT IN THIS CITY

Ten Acres of Ground Will Be Required For Work.

CAPITALIZED AT \$2,000,000

Large Amount of Capital Subscribed in This Oity.

Ten acres of ground will be required as a minimum for the plant, and it is stated that the London Chamber of for the purpose in annexed areas,

o Manufacture Trucks.

meantime manufacturing of libe started in the immediate ther in the E. Leonard & Sons' fork street or in a large buildle for the purpose, which was sed as a munitions plant and on Rectory. To Manufacture Trucks. This immense machine was capable of dipping down 80 feet, gathering up to feet, gathering up to feet, gathering up to dipping down 80 feet, gathering up to feet of rock, or 512 cubic feet of earth at a time, and depositing it 80 feet to the side into cars. In some cases where the rock had been well pulverized, Mr. McFarland saw this shovel pick up single masses of rock measuring six feet each way as easily as a man could take up a spadeful of earth.

For Roads and Banks.

The rock taken out was used as broken stone for roadways, and also for making an embankment to prevent landslifes along the side of the canal from which it was excavated. The canal from which i

a picnic weather month of Jun n all recollection. Picnics have been in full swing from two weeks to a month earlier than in previous years, the invitation of shady groves and parks and the waterside proving irresistible on broiling, baking The same conditions have been responsible for the fact that summer homes have been opened weeks earlier than usual, and a lively interest has been manifested betimes in summer

VOICE OF THE PEOPLE

A silver collection was taken in aid the Girls' Club of the church.

A HISTORY OF LACE-MAKING. A HISTORY OF LACE-MAKING.
To the Editor of The Advertiser:
I am engaged with Mr. Thomas
Wright upon an important work, which
will deal exhaustively with the history
of lace-making by hand, as carried on
in Bucks, Beds, Northants and other
districts.
I should be glad if any of your readers
who are interested in this subject would
communicate with me. They could help
in various ways; for example:

1. By giving an account of the prog-

2. By sending inscriptions on bobbins 2. By sending inscriptions on bosonies or trade tokens, or any anecdotes re-lating to the industry. But there are many other ways in But there are many other which correspondents could help; they which correspondents could nelp; they would be doing service, not only to me, but also to literature, and I should be pleased to hear from anyone.

The work will be a demy, 8 vo. of 300
