Exhibition Speed Program.

A meeting of the speed committee of the Exhibition was held yesterday, with Chairman W. J. Stark presiding. The speed program was revised from beginning to end, and it was decided to recommend that the total of the prizes be increased from \$3400 to \$5000. A suggestion was also made that it might be advisable to reduce the entrance fees and also to open one or more stakes. Some consideration was given to a proposed feature race. It was further suggested that in order to put the program thru more promptly, it would be necessary to adopt the two-heats-in-three system. A long-distance race was also mooted. One thing the committee was resolved upon was, that the racing should not extend over Thursday, and should, in fact, be confined to the first four days of the week as on Friday the judging of carriage, saddle and hunt horses commences in front of the grand stand. Dr. Andrew Smith thought that the method adopted by the hought that the method adopted by the solution of the winner. A sub-committee was appointed to arrange the dates, times and purses with the executive. Exhibition Speed Program.

bear his aggressiveness and tenacity and was universally successful.

Baldwin was born in Butler County, O., April 3, 1828. He followed the occupation of his father and tilled the soil in his early years near South Bend. Ind., where his family had moved. He afterwards engaged in canal boating on the Illinois and Michigan Canal. He made frequent trips to Chicago and soon became wealthy speculating. He was then seized with the California fever. In 1850 he hit the west-Portland to Liverpool.
