Will Make "Tribute Night" Great Patriotic Feature

Things are now in readiness for making "Tribute Night" one of the greatest patriotic features that Toronto has seen since the beginning of the war. It is expected that all the returned soldiers in the city who are able to do so will be among those who either line the streets, forming a guard of honor, or will later have place on the platform or ground-floor of Massey Hall. The military arrangements have been authorized by Gen. Logie, and the entire proceeds are due to the initiative of Miss Church, sister of the mayor.

Places will be reserved in the gallery for the wives, sisters and other friends of the soldiers, and apart from the places reserved other portions of the hall will be opened to women generally. A number of the returned soldiers will be among the speakers. St. John's Ambulance Brigade will be leaders, and the collection when taken up will be given to the city treasurer, to be in his charge until the club is incorporated.

TEACH DOMESTIC SCIENCE.

A somewhat unique class will be that about to be established in the King Edward School, when twenty young deaf and dumb women will be taught domestic science. The class will be held in the evening, as those who are to be its pupils are engaged during the day in the classes held in the King Edward School because the classes as the technical are already filled both for day and evening sessions.

MANITOBA TO GIVE FARMERS' LOANS

New Rural Credit Bill to Be Modeled on U. S. Measure.

TO FORM ASSOCIATION

Government to Take Stock Jointly With Borrowers in Concern.

By a Staff Reporter.

Winnipeg, Nov. 29.—"The war has enabled us to settle two questions which for a great many years perplexed the Province of Manitoba," declared Hon. Edward Brown, provincial treasurer, tonight at the banquet of the Grain Growers' Grain Company and National Council of Agriculture. "The questions," he continued, "were language and liquor. Both have been settled forever and settled right."

Mr. Brown took occasion to explain in great detail the forthcoming Manitoba legislation in respect to rural credits. The bill is closely modelled upon the federal farm loan act passed by the U. S. congress a few months ago, but differs in one essential feature.

Depends on Municipality. The unit of the Manitoba scheme is the municipality. The act only comes into effect in any municipality after a bylaw for that purpose has been submitted to and adopted by the people. The municipality becomes liable for loans made to farmers, but no loan will be made except upon the recommendation of the municipality.

An association is to be formed, some of the stock being taken by the government and the rest by borrowers. The government will be non-dividend paying, but the association will be under government control. The affairs of the association will be managed by a board of five, two to be chosen by the municipalities and three by the provinces, but both political parties will be represented.

Among other speakers at the banquet were Col. R. Z. Fraser of Burford, Ont. He spoke on behalf of the Farmers' Co-operative Association of Ontario. He said the association was doing business of \$60,000 a month.

Farmers Pay War Taxes. L. Brown of Brandon, responding to the toast of the empire, expressed his regret that Great Britain was helpless to escape from the strangle hold of the drink evil. He called attention to the fact that the Farmers' Co-operative Association of the prairie provinces were giving up to the government nearly \$700,000 in war taxes for two years.

Among other prominent speakers were Cecil Rice Jones, president and general manager of the Alberta Electric Company; Hon. Charles Dunning, the newly-appointed treasurer of Saskatchewan; and T. A. Crerar, president and general manager of the Grain Growers' Grain Company of Canada.

LOSES MOTION TO QUASH CONVICTION

Chief Justice Mulock Says Finding Against Hugh McEvoy Proper.

OSGOODE DECISIONS

Application to Remove Executors of Estate of the Late S. May.

Yesterday at Osgoode Hall Chief Justice Mulock dismissed with costs the motion to quash a conviction made by G. T. Denton, police magistrate for the city of Toronto, whereby Hugh McEvoy was convicted of receiving an order for liquor for beverage purposes and was fined \$50 and costs, McEvoy, on October 7, 1916, was in charge of the store of E. J. Convey at 380 Royce avenue. A liquor business had been run in connection with this store prior to the enforcement of the Ontario Temperance Act. On the above date Charles Bruce entered the store and asked for a bottle of whiskey, McEvoy produced a blank form and asked Bruce to sign it, which he did. After Bruce had paid 35 cents as the price of the liquor, 2 cents for the payment of the express order, and 3 cents for a postage stamp, the order was forwarded to the Distillers Distributing Company of Montreal. McEvoy was convicted on section 42 of the Ontario Temperance Act.

His lordship, in giving judgment, said: "The magistrate was, I think, right in holding that in receiving the blank form from Bruce signed by him, and filled up by the defendant, the latter was guilty of the offence of receiving an order for liquor for beverage purposes within the province. It is immaterial whether the person receiving the order transmits it to another province to be filled up or makes no use of it, his offence is complete when he has received the order. I think that McEvoy was rightly convicted and this motion should be dismissed with costs."

The next sitting of a divisional court will be held the week commencing Monday, Dec. 11, 1916.

The following writs have been issued: Albert D. May versus Charles F. Wheaton and W. G. Thurston, executors of the estate of the late S. May, asking a declaration that all legacies to them are null and void. Testamentary incapacity is alleged. The plaintiff asks that the defendants be removed from office as executors, and especially that they be restrained from dealing with the stock of Dodge Manufacturing Co., Limited.

RECOMMENDS THAT JAIL BE REMOVED

Controller O'Neill Would Place Governor and Deputy on Pension.

IN SUBMITTED REPORT

Suggests That Prisoners Be Accommodated at the Jail Farms.

Controller O'Neill, in a report to the board yesterday, recommended that immediate steps be taken to obtain the consent of the Ontario Government for closing the jail.

To meet the requirements for accommodation of prisoners sentenced to institutions other than the industrial farms and awaiting transfer, he would arrange for a place of detention near the courts. For the care of prisoners sentenced to jail terms the government should be petitioned to accept cottage No. 2 at the men's industrial farm and cottage No. 1 at the women's industrial farm as county jails.

He recommends remodeling Court street station to care for forty prisoners, and that all transfers to the farm be made in a motor bus.

"I recommend," he continues, "that the governor and deputy governor be superannuated and granted pensions, that the steward be transferred to the industrial farm, that the engineer be provided with a similar position in the civil service, that the competent guards be cited for in the same way, and that the medical service be transferred to the department of health."

He recommends that the jail be torn down and the land used for park purposes.

DESIRE ADOPTION OF DILUTION OF LABOR

Mark H. Irish Issues Statement Regarding Increase of Munitions Output.

Mark H. Irish M.L.A., director of the department of labor of the imperial munitions board, has issued a statement outlining some of the facts concerning the work of this department. The imperative necessity for munitions, he said, had caused the imperial munitions board in its endeavor to increase the output of the plants engaged in this work to bring to the attention of manufacturers of munitions the desirability of adopting what has been termed in England "the dilution of labor."

Under female labor it has been found that female labor is peculiarly suited to making munitions. By spreading the available male labor over either a greater period of time per day or over a greater number of machines, women under the charge of skilled men attain satisfactory results.

In reply to the communications received from several manufacturers not engaged in the work of this department, who have written stating that men leaving their employ have alleged that they were ordered into munitions factories, he stated that such an allegation was wholly without foundation.

One of the most serious impediments to efficient production, according to Mr. Irish, is the shifting of labor from one munitions plant to another, for which condition the employer is as much to blame as the women.

The following resolution was moved at the regular monthly meeting of the Women's Conservative Association in the club room at 810 Yonge street yesterday afternoon:

"Resolved—That the members of the Women's Conservative Association, now in executive session, regret the fact that an organized campaign is being made for women's suffrage at this time of war, when the united front of the women of the Dominion should be free from all action that may tend to divide, or give rise to controversy, thereby lessening the effectiveness of their patriotic endeavors; united action and harmony is more necessary at present than ever before owing to the greater needs
