VAST STORES OF WHEAT

YET REMAIN IN CANADA
 Hundred and Two Million Bushels Still in Dominion.
 Calgary, April 5.—According to figures compiled after a careful survey of the situation and a computation of the grain in elevators, it is estimated that there is still approximately 25,000,000 bushels of wheat in the Province of Alberta, that Saskatchewan has approximately 35,000,000 bushels on hand, and that Manitoba has approximately 12,000,000 bushels. In Fort William and Port Arthur there is approximately 20,000,000 bushels, while in the rest of the Dominion there is approximately 10,000,000 bushels. The total for the Dominion, according to these figures, would be 102,000,000 bushels.

POSING AS CLERGYMEN

FOE INCITE NEGROES
 Federal Authorities Arrest Two Men Who Promised Trains to Mexico.
 Birmingham, Ala., April 6.—Evidence that German agents were endeavoring to incite southern negroes against the United States was declared today by the federal government, following the arrest of two men—one of them a negro.

These agents, the federal authorities say, have worked particularly in Alabama, Louisiana, Georgia, the Carolinas and Mississippi. Posing as Bible salesmen and ministers of the gospel, federal agents declare, they have urged the negroes to migrate to Mexico, telling them that special trains would carry them there April 15. A negro arrested by federal authorities yesterday at Birmingham was charged with having made speeches to fellow-members of his race, in which he urged them to denounce this government and turn their efforts in behalf of Germany.

HUN AUTOCRACY LOSING GROUND

Reform Movement is Given Impetus by U. S. Entry Into War.
PEACE CLAMOR HEARD
 Moderate Liberals as Well as Socialists Abandon Annexation Dreams.

Copenhagen, April 6.—Via London. America's entry into the war evidently has had an immediate and strong effect upon the reform movement in Germany. The conviction that the instant modernization of the Prussian constitution and the proclamation of a more democratic basis of government and diplomacy in the empire without waiting for the end of the war is necessary as a military and political measure, to counteract the "tempest of the world's public opinion," as the Vorwarts puts it, is evidently gaining ground in all except reactionary circles.

The demand that Germany follow the example of Austria-Hungary and declare itself in favor of a peace without annexation is now being made in the Liberal, as well as from Socialists quarters. This demand no longer

represents alone the belief of many thinking persons that annexation, except for slight frontier alterations, would be against the real interests of Germany, but also the realization that after the United States joined the ranks of the enemy the time had passed when Germany could hope to dictate terms of peace, or even moderate terms.

Change in Sentiment.
 The Associated Press correspondent heard this view in even gloomier terms from various sides in Germany at the time of the rupture of relations between the United States and Germany, namely, that if the United States decided to take an active part in the war Germany could no longer hope to gain a victory, but after holding out for a year and a half, or two years, must inevitably submit to the economic pressure of the blockade.

Significant evidence of this change in sentiment is given by yesterday's leader in the Vorwarts on "America—the Enemy." The Vorwarts, which only a few days ago characterized the reform movement as a question of secondary importance to that of securing peace with Russia, and attracted wide attention by an article asserting that even the Socialists were not working against Germany's monarchist government, now springs around and declares that the adaptation of the antiquated constitutional forms in Germany to those prevalent in the rest of the civilized world is the vital and burning question of the hour. The newspaper says:

"The German nation is fighting for the defence of its house and hearth and not for antiquated conditions whose reform long has been promised, and which must disappear immediately in order to counteract the tempest

of the world's public opinion based on the belief that Germany is a tyrant and despotic conqueror, and that its enemies are the harbingers of liberty."

The Vorwarts speaks of the great strength of America as a peace-making power, and points out that without its co-operation at the peace conference it would be impossible to secure the possibilities for economic development which Germany will so sorely need after the war. It concludes by saying that the most urgent need of the hour is the organization of the national defence under the auspices of the sweeping reforms and the clearest and most definite announcement of the nation's intention to conduct the war, not for conquest, but only to foil the hostile designs of annexation and to end it immediately when the enemy denounces such designs.

Engine Crews Jump to Safety as Trains Collide
 Special to The Toronto World.
 Windsor, April 5.—A narrow escape from death or serious injury was experienced by the crew of No. 21 Michigan Central baggage and mail train, due in Windsor shortly after 2 o'clock, when the engine crashed head-on into a yard engine on the Michigan Central main line, back of Windsor, this afternoon. Seeing that the crash was inevitable, the crew of both engines leaped to safety, just a moment before the engines came together. The coaches were overturned and scattered along the tracks for a considerable distance. The tracks were torn up and traffic will be tied up until repairs are made.

Read The Toronto World for crisp, new items.

SEEDING HAS STARTED IN SASKATCHEWAN

Light Snowfall and Favorable Spring Have Combined for Early Start.
 Winnipeg, April 5.—Seeding started in southern Saskatchewan along the southwestern part of the province there was very little snow through the winter, and favorable spring weather has cleared it rapidly. On Wednesday and Thursday, which had been harrowed at the beginning of the week, seemed pretty fair shape, and several farms were out with drills.

Manitoba farmers have been on land for several days, but there are no reports of seeding starting. There will be some sandy places before the end of the week. Many favorable conditions have not existed for a number of years, according to stories of old-time farmers. Ground in many places was almost free from snow covering, and the ground was less than normal. In Saskatchewan, where the ground was not so hard, the moisture given by the heavy rains of last summer, in the case of the farmers, who have been digging wells state that they have found frost down nine feet. In Manitoba it is known to be eight feet deep. Land generally is assured of plenty of moisture for the 1917 crop, and the farmers are wishing that spring would come a little earlier, so that wheat would have been well developed before rust came north.

To the farmers of Ontario

Your farm help problem!

The Ontario Government appreciates the patriotic efforts of the farmers of Ontario, who are making a noble contribution to the cause of victory by responding earnestly to the appeal for increased production. It realizes that these efforts are limited only by the shortage of farm help, and it desires to afford every possible assistance in order to increase the number of workers on the land this season.

Let the Ontario Government Help You

The Department of Agriculture is making appeals through the press, and in other ways to men and boys who cannot join the army, to retired farmers and business men, to men who have spent the winter in the woods, and even to men outside the province to help on farms. Many have already promised to help the farmers this season.

BOYS—Many city, town and village boys made a success last year as helpers on the land under proper direction. The Government is endeavouring to enlist large numbers of industrious boys for farm service. Men are visiting many Collegiate Institutes and High

Schools to find those boys who are both willing to work and have ability and application.

It will be necessary for the Government to have exact information about the kind of help a farmer wants, the length of time for which help is wanted, and the amount of wages the farmer is willing to pay.

Cut out of this advertisement the application form which appears below. Please fill out all the blanks carefully; put the form in an envelope and mail at once. Address your letter to the District Representative of the Department of Agriculture for your county or to The Ontario Government Labor Bureau, 15 Queen's Park, Toronto.

If you want to apply for farm help, all you have to do is to fill in the application below, cut it out and mail it to Ontario Government Public Employment Bureau. (Address below.)
