Two Toronto Men Dead In Wreck on Soo Line

Lindsay Coming Back To Face Crown Charge

Mother Loses Own Life In Effort to Save Babes

TORONTO TRAVELERS KILLED IN COLLISION

S. J. Hunt and R. A. Chapman Die in Their Berths When Rotary Snowplow Crashes Into Passenger Train at Macoun, Sask.

Two Toronto men, both commercial travelers, and very close friends, were killed in a wreck on the St. Paul & Sault Ste. Marie (Soo Line) Railroad at Macoun, Sask., early Saturday morning, when a rotary snowplow, driven by a powerful four-drive locomotive, crashed into the rear of a standing passenger train. They were Samuel J. Hunt of 206 Grace-street, traveler for Saunders & Rowan, merchant tailors of West King-st., and Richard A. Chapman of 489 Ossington-avenue, traveler for the Wampole Drug Co. of Perth, Ont.

They were the only persons killed. Mall Clerks Lewis Monahan and Orentally, and a porter named Coble, were seriously injured, but will likely recover.

Close Friends. Mr. Hunt and Mr. Chapman were middle-aged and very close friends. While in Toronto they were much together, and on leaving for the west Monday night, they both rode to the Union Station from the Hunt residence in a taxicab. Mr. Hunt was on his way to Seattle for his firm. He was married and leaves a widow and three grown-up children.

Mr. Chapman was bound for Calgary in his company's interest. He was single and lived with his father, mother and sister in the Ossington-avenue residence.

Cause of Accident. Macoun is on the border between Saskatchewan and North Dakota. The wreck occurred shortly after midnight. Passenger extra, No. 205, running into Moose Jaw from the south, had been seriously delayed by storms of the day before and pulled into Macoun at 12 o'clock. She was followed up by the snowplow and engine, which left Estevan half an hour before. The passenger train was standing near the siding and the engineer on the plow apparently did not see the waiting train. The sharp nose of the plow cut clear thru the mail car, completely demolishing it, and the momentum drove the plow ahead into the sleeping car.

In Snow Drift. No. 205 had been in a snowdrift for eighteen hours near Kenmare and left North Portal with the mail car in the rear owing to a broken draw-bar. This undoubtedly saved the lives of many passengers.

None of the crew on the snow plow were injured. No other passengers in the sleepers were injured and it is remarkable that all save the Toronto men escaped. Two coaches were in the ditch.

Ottawa Faces Typhoid Epidemic

Bewage Contamination of Water Blamed—Will Try Hypochlorite Treatment.

OTTAWA, Jan. 21.—As the result of the visit of a civic deputation to Montreal yesterday to investigate the hypochlorite treatment of water, City Engineer Kerr this morning took steps to begin purification of Ottawa's water at once. A special meeting of council has been called for Monday to sanction it. There were nearly 70 cases of typhoid reported in the city this morning and the extent of the disease is rapidly assuming the proportions of an epidemic. The last samples of water sent to Toronto for analysis have not been reported upon. It is considered practically certain the typhoid is due to sewage contamination.

To remove mildew rub over the marks with the juice of a raw tomato, repeat with salt and lay in the sun. Repeat the process if necessary two or three times.

THE DEAD

Samuel J. Hunt, 206 Grace-street, traveler for Saunders & Rowan, tailors, Toronto; leaves widow and three children.
Richard A. Chapman, 489 Ossington-avenue, traveler for Wampole Drug Company of Perth; unmarried.

MEN DISCHARGED BECAUSE OF GREED

Charge Made at Ottawa That Hon. Chas. Murphy is Dismissing Protestants and Making Printing Bureau "Blarney Castle."

MONTREAL, Jan. 21.—A report from Ottawa says there is a pot full of trouble boiling over for Hon. Charles Murphy, who has succeeded in clearing out the Protestants from the printing bureau that resembles Blarney Castle. Not only will the parliamentary committee, which is to be moved for by W. B. Northrup, go much deeper into the whole affair than Mr. Murphy did, but it will investigate the charges that men were discharged simply because they were of the Protestant faith.

It is a matter of notoriety that Mr. Murphy and Mr. Fisher are not on speaking terms ever since the secretary of state tried to get rid of Mr. Parmelee, the King's printer, who is recognized by both political parties as the most capable and practical official in that important position Canada has ever had. When it was seen that the Murphy guns were trained on Parmelee, Mr. Fisher called a sudden halt on Mr. Murphy, and being, of course, the senior of the two in the cabinet, Mr. Fisher won a set-up on Mr. Parmelee and Sir Wilfrid Laurier is said to have informed his secretary of state that if he wished to make the bureau an Irish Catholic stronghold he must not go about it in such a spectacular fashion. At any rate, Murphy and Fisher are not on speaking terms.

CHASED THE FIREMEN

Woman Subdues the Flames and Then Stands Guard Over Clean Floors.

It is not often that the firemen are unwelcome when they come, but yesterday they were refused admission to 322 Parliament-street. There had been a small fire at 11.25 Saturday morning, and somebody phoned for the firemen. Meanwhile the good lady of the house had fought it out with the infant flames and whipped them to a frazzle. Therefore, she did not propose to have a herd of firemen tracking mud and snow on her spotless floors, and told them so, twice or more. Finally a bargain was made. The lady vowed that there was no more fire and the firemen departed. Youngsters in the kitchen of Charles Davis' place at 319 Sumach-street at 12.39 o'clock. The damage to the building was \$20, and to the contents \$200.

WHIRLED TO DEATH

Man Terribly Mutilated When Coat Sleeve Caught in Wheel.

SCHENECTADY, N. Y., Jan. 21.—As John Krygowski, an employe at the American Locomotive Works, was about to replace a chain on a sprocket wheel of a machine used to straighten scrapiron, his sleeves caught in the cogs and he was whirled about until his legs had been torn from his body, his head crushed and his clothes completely ripped off. He then fell 15 feet to the floor and was picked up dead.

LINDSAY WILL RETURN ON MONDAY

Writes Friend in Winnipeg That He Will Be Here to Explain His Transaction With Defunct Farmers' Bank.

CHICAGO, Jan. 21.—(Special.)—W. J. Lindsay, the Toronto broker, charged with conspiracy to obtain by fraud the treasury board certificate upon which the defunct Farmers' Bank began business, is in this city. He will leave here Sunday night, arriving in Toronto at 3 o'clock Monday. He declares that there has been nothing criminal in his dealings with the bank, and says that he will make it interesting for newspapers, which he says have wantonly besmeared his reputation.

He came to Chicago from Winnipeg to meet his solicitor.

"Watch the Papers," Lindsay Writes Friend

WINNIPEG, Jan. 21.—(Special.)—W. J. Lindsay has written as follows from Chicago to a well-known Winnipeg business man: "I am leaving here on Sunday night for Toronto. Watch the papers. I understand that Travers has tried to bring me before the footlights thru the press, thru my underwriting \$50,000 of this stock, which he afterwards refused to transfer, and finally canceled. I will make the Toronto papers retract." "I will be in Toronto Monday at 3 p.m."

While in Winnipeg Mr. Lindsay was engaged in selling the stock of the newly-formed Port Arthur Wagon Co., and is said to have interested several prominent local men in the concern.

After Deposits, Not Business.

A gentleman who has made a study of the revelations of the Farmers' Bank as they have come along, said he had been looking for the plan on which the bank had been conducted and had been looted. He had come to the conclusion that the game was first to get the bank started and then to develop it as a deposit bank, especially among farmers, and to get all the cash on deposit that could be possibly got. They had no great desire, once they got the money, to let it out on business paper or to encourage accounts that were active and required a good deal of cash. It was simply a game to keep the deposits and to use them for their own purposes, and as long as they kept the confidence of the depositors no great danger was threatened. It will be remembered that whenever the credit of the bank was attacked the management went after those who attacked it so as to maintain its position with depositors. When the deposits began to be drawn out then the weakness of the institution was developed. While a considerable amount of commercial business was done and the bills of the bank were paid out, the management was always able to meet its daily obligations in the clearing house. In a word, the game was to keep up deposits and to have the use of that money, more or less, for those who were engineering the proposition.

Gallagher Sues Papers For Libel

Was Arrested For Theft By N. W. Mounted Police and Honorably Discharged

HAMILTON, Jan. 21.—Writs for libel were issued to-day against two Hamilton papers in connection with the case of D. H. Gallagher, a T. H. & B. machinist, who was arrested here recently by the Northwest mounted police, charged with theft in a Saskatchewan town. Gallagher was not only honorably acquitted, but the magistrate said there was no foundation for his arrest.

FACING DEATH TRIED TO SAVE LITTLE ONES

Heroic Action of Mrs. Brooks in Indian Road Fire Adds Pathos to Tragedy—Probable Cause of Conflagration.

Appalling as was the Indian-road fire, in which five—a mother, three children, and a servant girl—perished, the heroism of the mother shines out resplendent. When the volume of almost impenetrable smoke was rolling up stairways and filling the upper rooms to suffocation, Mrs. Brooks, regardless of her own danger, rushed up to the attic for her baby. Clinging to the two-year-old baby boy in her arms, she ran down to the second floor, which apparently at that moment collapsed, carrying her and the baby to death in the cauldron of fire beneath.

When the floor fell the big brass bedstead, in which were the 3 other boys, little fellows of three and five years, came thru in the abyss, but they were spared death by flames, as the smoke had suffocated them and they were under the covers. The mother's charred remains, with her baby still clasped in arms, were found on the drawing-room floor, a few feet away from the bedstead on which lay the two suffocated children.

Mrs. Brooks was burned beyond recognition, but was identified by her wedding and diamond ring. As stated in The World yesterday morning, the body of the fifth victim, Violet McFadden, was found by Lieut. Hamilton of the fire department in the bathroom. The unfortunate young woman might possibly have escaped had she not taken time to attempt to dress, as she had put on a skirt and shoes.

Mr. Hahn, a neighbor, is of the opinion that the fire was caused by a gas jet in the hall very near the ceiling. There are indications that it set fire to the ceiling.

The house was entirely of wood and plaster, with a hardwood finish, rendering it extremely inflammable.

Percy Brooks, the bereaved husband, is manager of the Canadian Fairbanks Morse Manufacturing Co. He was in Chicago on business for the company. Maggie McCalden, the nurse girl who was injured in the fire, was reported as "quite comfortable and resting quietly" at the Western Hospital yesterday.

Coroner R. B. Orr was appointed by Chief Coroner Arthur Jukes Johnson to investigate. After enquiry he decided that no inquest will be necessary.

Word has been received that Mr. Brooks left Chicago for Toronto before news of the disaster could reach him. A friend in Detroit has been wired to watch for Mr. Brooks and break the terrible news of his bereavement to him.

Golf Club Buys On Etobicoke Creek

Authorizes Purchase of 300 Acres Near Lake Shore Road For \$75,000.

The Toronto Golf Club has decided on the purchase of 300 acres of land, extending on each side of the Etobicoke Creek, near the Lake Shore-road. The property is situated jointly in the counties of York and Peel, and its estimated purchase value is \$75,000. A special meeting of the Toronto Golf Club committee, held in the clubhouse on Saturday afternoon, a resolution was passed authorizing the purchase of the property, which is admirably adapted for golf purposes, and will make one of the most extensive links in the Dominion. The actual purchase price has not yet been decided on, but the estimated cost will be in the neighborhood of \$75,000.

Workman Killed On C.N.R. Tracks

MONTREAL, Jan. 21.—On the Canadian Northern Railway at an early hour this morning, at Maisonneuve a snowplow ran down and killed Joseph Dulhaine of Charlemagne, who was going to his work and was walking on the track. Two others who were also present, named Beauchamp and Goulet, 17 and 18 years of age respectively, were also run down and badly injured. In fact, they may or may not live. The inquest will take place Monday.

CANADIANS SATISFIED BELIEVE THEY WERE NOT BESTED WITH U. S. CONCESSIONS

Likely That Free Entry of Canadian Fish to the United States Markets Has Been Agreed Upon—President Favors the Pact—Full Announcement to Be Made on Thursday.

WASHINGTON, Jan. 21.—The reciprocity negotiations with Canada have concluded and the conferees have signed it. The pact was made shortly after one o'clock to-day, when with much handshaking, the conferees departed from the secretary of state's office, and Secretary Knox gave out the following statement:

"The negotiators have reached an understanding which, when certain formalities are completed, will be made public at Washington and Ottawa. It is thought that this may be done next Thursday."

Scramble for News. Then began the scramble for news. "What are the details of the Canadian reciprocity pact which has been drawn up between the United States and Canadian negotiators?" "How are the duties on American manufactures exported into Canada affected?" "How far are the bars in Canadian natural products down?"

These questions, asked from all sides, brought forth no further response than the information that the answers would be given to the public in the near future. Mr. Knox, secretary of state, received enquirers in his office, and after warning them in advance that he could give out no information, told them, in the best of good humor, that the state department had agreed to say nothing until a joint statement from the joint conferees was made and that he would stand by that agreement. Information was sought of the Canadian negotiators with the same result. Messrs. Fielding and Paterson were all smiles, but not a word would they utter, and still silent as a claim on the trade compact. Mr. Fielding at 2 o'clock boarded a train for New York, from which place he will on Monday depart for Ottawa.

Result Kept in Dark.

Mr. Paterson will probably join Mr. Fielding in New York on Sunday. Much speculation as to the result is indulged in by all interested in the matter, but no one is able to authenticate any statement. That the Canadians are still pleased with the result is plainly evident by their demeanor. They do not indulge in expressions to this effect, but it is safe to say they consider that they have not been bested in their negotiations. It would be useless to endeavor to forecast the result of the conference, as facts have been withheld from the public by the con-

Defence Rests In Schenk Case

Witness Testifies of Confident Opinion That Schenk Was Dosed With Arsenic—Defence Witness Creates Some Sensation.

WHEELING, W. Va., Jan. 21.—The defence in the Schenk case rested at 3.30 o'clock this afternoon.

No indication was given this morning as to the names of the witnesses that would be called.

Dr. S. L. Jepson, who examined Schenk in company with Dr. Hupp, the prosecution's star, was put on the stand. The witness told of having visited Schenk in the hospital and making various tests.

No Doubt About Arsenic.

"From what you learned," asked Attorney J. J. P. O'Brien, "plus what Dr. Hupp told you, did not you come to the conclusion that he was suffering from gastric trouble, and not a result of arsenical poisoning?"

"No, I could not say that. He had evidently had some arsenic."

On cross-examination, he said that Schenk was undoubtedly a big, healthy man before his alleged poisoning, and had lost much weight since. He admitted that all symptoms which he found indicated that Schenk was suffering from chronic lead poisoning and also arsenical poisoning.

No Love Lost.

Mrs. Jane Hedges furnished the first real thrill for the defence. On direct examination she said: "Albert Schenk told me that John had bought his wife a \$5,000 automobile and that he said, 'I hope she breaks her neck the first time she goes out in it. I will leave no stone unturned to get rid of that woman and another out of the family.'"

Hockey Extra GOOD CROWD SEE SENIOR GAME ICE FAST

Teams About Even in the First Half, With T.A.A.C. Scoring First Goal—Game Clean and Fast.

MUTUAL-STREET RINK, Toronto, Jan. 21.—A fairly large crowd turned out to see T.A.A.C. and Toronto Rowing Club play their second game in the Senior O.H.A. series here to-night. Both teams made several changes in their line-up. Kenney and Carter, at goal and point, replaced Ardagh and Bill Whale, while Williams and Gardner were new wing men for the Toronto Rowing Club. McArthur and McEachern replaced the two Burkhards, who were sick, for the crimson.

The line-up: T.R.C.—Goal, Kenney; point, Carter; cover, Whale; rover, Barlett; centre, McLean; right wing, Gardner; left wing, Williams.

T.A.A.C.—Goal, McLaren; point, McArthur; cover, McEachern; rover, Dion; centre, Brown; right wing, F. Burke; left wing, McCreath.

Referee—Lawson Whitehead. First half—T.A.A.C. rushed from the face and narrowly missed. Both goal-tenders stopped shots, and one by Bud McLean nearly beat McLaren. McArthur was the first man to be ruled off. Gardner passed badly, and Burke missed by inches. McArthur went on and Barlett gave McLaren a fast one on a pass from Whale. Burke made another nice shot after a rush. Dion had a good chance from a face near T.R.C. goal, but missed. McCreath broke away from a face near centre ice and scored the first goal of the match for T.A.A.C. after eight minutes of play.

Barlett was sent off for a drip, and McArthur broke up a fast Rowing Club rush. McArthur again broke up a rush, and Carter was sent off, who was followed by McCreath. T.A.A.C. had somewhat the better of the play, and McArthur got the next goal after a magnificent rush the length of the rink. Time, 4:10.

Williams got Rowing Club first goal from the face. T.A.A.C. then scored two more in short time on shots by Burke and Dion. Burke was next man ruled off. McCreath missed nice pass from Brown with play around T.R.C. goal. Gardner gave McLaren a hot one to stop also McLaren. McEachern did some fast rushing and narrowly missed the boards and McCreath had a nice shot. Ted Whale rushed, but Gardner was slow in taking the pass.

Woman-Hater Leaves His Entire Fortune to Teach Girls to Cook

Provides That Relatives May Have Free Dinners at School—Municipality Accepts the Gift.

VIENNA, Jan. 21.—A remarkable will was left recently by Fountz Boror, a wealthy young bachelor and violent woman hater, who died in a Hungarian town.

During his lifetime the cause of his antipathy to women was never conjectured, but his curious will explains that he never married because modern women have little knowledge of the principles of cooking.

In order that young girls might be taught how to prepare food in a civilized manner he left his entire fortune to the municipality for the purpose of establishing a free cooking school. That he bestows on his relatives the privilege of daily free dinners at the school is an ironical observation made by the testator. The bequest has been accepted by the municipality.

Workman Killed On C.N.R. Tracks

Joseph Dulhaine Run Down By Snowplow—Another Badly Injured.

MONTREAL, Jan. 21.—On the Canadian Northern Railway at an early hour this morning, at Maisonneuve a snowplow ran down and killed Joseph Dulhaine of Charlemagne, who was going to his work and was walking on the track. Two others who were also present, named Beauchamp and Goulet, 17 and 18 years of age respectively, were also run down and badly injured. In fact, they may or may not live. The inquest will take place Monday.

MRS. KETCHELL ON STAND

Tipley and Smith Put Up Defence on Charge of Murdering Stan. Ketchell.

MARSHFIELD, Mo., Jan. 21.—At the opening of to-day's session of the trial of Walter Tipley and Golda Smith, charged with the murder of Stanley Ketchell, champion middleweight pugilist, introduction of testimony for the defence began. Mrs. Julia Ketchell, mother of the slain man, will arrive here to-day from her home in Grand Rapids, Mich. It is expected she will be put on the stand by the defence.
