## LONDON PAPERS

### ON SUGGESTION OF U. S. PRESIDENT

(Canadian Press Cable.)  
London, Nov. 29.—Increasing attention is given by the London press to President Harding's suggestion of an "association of nations" through a series of international conferences, the conclusions of which will be observed under a gentlemen's agreement rather than by treaty.

The Times says that Mr. Harding's conception of the principle underlying such an association has in itself a "tonic effect." The newspaper adds: "It is heartening to know that the president, inspired by the results of the Washington conference, is already looking forward to a future from which the possibility of active co-operation by the United States in the solution of acute international problems is not excluded."

The Morning Post says: "The president's aspiration demands serious and respectful consideration."

The Post, however, expresses itself as being not a strong believer in any league or association, and is not especially enamored of the present proceedings in Washington.

Interest in, and sympathy with the "growing movement in the U. S. for greater participation in world affairs" is expressed by the Daily News which says that the refusal of the U. S. to enter the League of Nations was never regarded in England as a proof of her intention to return permanently to the policy of isolation which the war temporarily made impossible.

## PITCHED BATTLE IN STRIKE ZONE AT NEW ORLEANS

New Orleans, La., Nov. 29.—Quiet reigned today in the zone of a pitched battle last night on the waterfront between police and sympathizers of the union dock workers. ## BIG FIVE DID NOT MEET TODAY

### Postponement at Request of One Delegation.

### The Washington Conference Faces Insistent Demands of the Ratio of Her Naval Strength.

Washington, Nov. 29.—The scheduled meeting of the big five naval experts, the first general meeting held by the naval men for nearly a week, was postponed today until tomorrow at the request of one of the delegations.

No official statement as to the reason for the postponement or the delegation making the request was given.

The question of a sixty or seventy per cent. naval ratio for Japan, upon which there has been no indication of an agreement in the committee, had become the outstanding issue of the conference through a definite announcement by Vice-Admiral Kato, chief Japanese naval expert, that Japan wants the seventy per cent. status. In the first authoritative announcement that Japan sought to replace the 55-53 ratio basis of the Hughes naval limitation proposal, giving her a sixty per cent. status with a seventy per cent. ratio for her fleet.

Vice-Admiral Kato declared that this was the minimum necessary for Japan's security.

Against this, the U. S. naval experts still gave every indication today of firm adherence to the view that sixty per cent. for Japan was the maximum naval strength that could be accepted in view of the U. S. liabilities and interests in the Pacific.

In addition to a final agreement looked for today gradually to abolish the system of extra territorial rights in China under which foreign governments have set up their own courts there, the Eastern committee of the conference also was prepared to take up China's request for withdrawal of foreign troops stationed on her soil without treaty sanction.

### Striking in Tokio.

Tokio, Nov. 29.—After listening to addresses by a group of Tokio publicists who have held out for a greater naval ratio for Japan than provided for in the Hughes' naval holiday proposal, a meeting in Shiba Park today adopted resolutions opposing the 5-5-3 ratio and favoring abolition of fortifications in the Pacific ocean.

Besides the publicists, who urged adoption of the resolutions, Vice-Admiral Kato delivered an address in which he was quoted as saying that if the Japanese delegates accepted the sixty per cent. naval ratio for Japan instead of securing the seventy per cent. status, they would not only prevent their return but will appeal to the League of Nations for ratification of the agreement reached at the conference.
