TROPIC RAIN.

As the single pang of the blow, when the metal is mingled well, Rings and lives and resounds in all the bounds of the bell; So the thunder above spoke with a single tongue. So in the heart of the mountain the sound of it rumbled and clung. Sudden the thunder was drowned—quenched was the levin light—And the angel-spirit of rain laughed out loud in the night. Loud as the maddest raves in the cloven glen, Angels of rain you laughed and leaped on the roofs of men; And the sleepers sprang in their beds and joyed and feared as you fell. You struck, and my cabin quailed; the roof of it roared like a bell. You spoke, and at once the mountain shouted and shook with brooks. You ceased, and the day returned, rosy, with virgin looks. And methought, in security and terror are only one, not two; And the world has room for love, and death, and thunder and dew; And all the sinews of hell slumbered in summer air. And the face of God is a rock, but the face of the rock is fair. Beneficent streams of tears flow at the finger of rain; And out of the cloud that smites, beneficent rivers of rain—Robert Louis Stevenson.

Deputy Sheriff John Burke of San Mateo county, California, hunting for a young man charged with murder, learned for the first time two months ago that the fugitive was his own son. He went to the district attorney and told him he would do everything possible to get the boy, and finding means of getting letters to the fugitive wrote him, urging him to give himself up. The young man has surrendered himself in Los Angeles.

"I don't see why you stick to Dr. Torpor's church," chattered Mrs. Phillip. "He's such a pious old preacher."

"He's just that," agreed her friend, Mrs. Fortysome, "but then, you know, the light from that rose window shines right over my pew and makes me look not more than twenty years old."

## A CHAIN OF GROCERIES IN THE DOMINION

23 Loblaw Stores Purchased by Dominion Stores Limited

Expansion Planned—Will Operate System Extending From Coast to Coast—400 in Ontario and Quebec Alone.

Further evidence of the tendency toward broad scale of operations in business is contained in the announcement of the purchase of the chain of grocery stores of the Loblaw Stores, Ltd., Toronto, by the Dominion Stores, Limited. The deal was consummated on Feb. 22 last, when the Dominion company took possession of the twenty-three stores of the Loblaw concern, all operating in Toronto. Complete payment was made in cash, but the amount has not been disclosed. It is the intention of the purchasing company to expand their business and open up grocery stores in the various important centres in Ontario and Quebec, and ultimately, although no definite plans have as yet been completely laid out, to extend the chain from coast to coast. Tentative plans have arranged for a minimum objective of 400 stores in Ontario and Quebec alone.

The Dominion Stores, Limited, is at present operating thirty-five stores in all, only being situated outside the city of Toronto. The firm has had an interest in the Loblaw company since last August when an agreement was entered for the taking over of the company's properties.

Wm. J. Pentland, vice-president and general manager of the purchasing firm, assumed the management of the Loblaw stores in October and opened a number of new branches. At the time the agreement was made the Loblaw company had nineteen stores in operation but under the management of Mr. Pentland this number was increased to twenty-three.

The Dominion company is incorporated with capital beyond \$350,000. It is understood that arrangements are being completed for the financing of the additions contemplated. Tenders will shortly be called on an issue of \$200,000 of preferred stock and the issue will be on the market about April 1.

The directors have already taken up the first issue of preferred, class B stock, which was used to finance the purchase of the Loblaw company assets. The new preferred will bear interest at eight per cent. There are also 20,000 shares of common which have been largely taken by directors, a small amount being retained in the treasury for the employees by the company.

Manager Pentland, who is supervising the undertaking, has had long experience in similar work in the United States. He was formerly general superintendent of the Great Atlantic & Pacific Tea Company, operating 4,000 stores. He was with the firm for a period of ten years, and at the time he became a member of the company owned only 255 stores. He worked his way from the bottom to the important post which he finally held and in the course of his experience received a keen insight into the manner of development of a system of chain stores. He came to Canada in April, 1919, to act as manager for the Dominion Stores, Ltd. He is a British subject, his birthplace being Belfast, Ireland.

## Chain of Grocery Stores.

The company proposes to build up a great chain of grocery stores throughout the Dominion. Until the organization has been perfected and carefully trained, efforts will be chiefly directed to the two provinces of Ontario and Quebec. Already a store has been opened in Ottawa, the first outside of Toronto, and, according to present plans, a new store will be opened every week, and later two a week. As staffs are trained it is expected that the work will proceed much more rapidly. The various stores will handle standard lines of groceries. It is not contemplated that the company will adopt any private trade mark and will proceed generally along the lines adopted by the ordinary grocery with the exception that the stores will possibly be operated under a more definite system.

## BIG MANUFACTURER HITS MURRAY SCHEME

Robert McLaughlin Says It Is Not Based on a Knowledge of Advertising.

Speaking to the Financial Post in relation to the plan of certain members of the Canadian Manufacturers' Association to boycott anti-protectionist papers in the advertising of advertising contracts, Robert McLaughlin, of Ottawa, Ont., founder and head of the McLaughlin vehicle industries, expressed himself as utterly opposed to such an extreme measure.

"Such a senseless movement is bound to fail, because it is extreme and impractical. It is not based on a knowledge of advertising and its relation to a manufacturing organization. In the first place, anyone who attempts such a boycott will find that the really influential newspapers are strong enough to withstand such bullying," said Mr. McLaughlin.

Another Ottawa manufacturer who discussed the scheme started that he would not give it any support. He would advertise in the newspapers that would serve his product for his firm. He knew that if he attempted to dictate editorial policies, his whole advertising staff would pack their grips and walk out.

Monosaccharide of salicylic acid is the chemical name.  
The Germans Named It "ASPIRIN"  
Canadians Call It ACETOPHEN

## "THE ARRIVAL OF KITTY" SCORES A DECIDED HIT

Clever Production by Amateurs in St. Vincent's Auditorium—Fairville Also Sees a Fine Show—Both On Again Tonight.

If laughter contributes to the cause of chesty, then those already burdened with a superfluity of avoidable fat better remain away from, while those desiring to grow fat, should certainly see "The Arrival of Kitty." It is a bright, wholesome comedy, and was clearly and cleverly presented under the auspices of the Y. M. C. of the Immaculate Conception before a capacity house in St. Vincent's auditorium, Cliff street, last evening. Hearty laughter prevailed throughout the evening. The success attending the piece is especially remarkable, considering that those taking part had but two weeks' rehearsal, probably a record in amateur theatricals in St. John as well as for the general success of the production, much credit reflects upon Miss Stella L. Pyne and J. C. McElroy, who directed the show. The play will be repeated this evening. The proceeds are for the benefit of the orphanage.

While for years past it has been the policy of amateurs to essay the stage through the medium of melodrama, that desire now seems happily abandoned and light refreshing comedies are being presented in a manner which won for them a share of the plaudits. E. M. O'Toole in local theatricals J. Harold Drummie became very popular in the role of Bobby Baxter, a youthful but not without a few tricks, and it may safely be said that his success will be followed by participation in later endeavors.

Miss Helen Flood, who was very winsome and pleasing in her role of Janet, the heart's desire, was assisted by the lines and doings of Benjamin Moore, an English adorer of the fair, who was a most successful comedian in the role of Aunt Jane, each taking the most possible out of the situation. Miss Margaret Moore, a young girl, played the role of Aunt Jane, and her performance was most successful. Miss Margaret Moore, a young girl, played the role of Aunt Jane, and her performance was most successful.

Specialties of a high standard of merit were given between acts. Miss Helen Flood, who was very winsome and pleasing in her role of Janet, the heart's desire, was assisted by the lines and doings of Benjamin Moore, an English adorer of the fair, who was a most successful comedian in the role of Aunt Jane, each taking the most possible out of the situation. Miss Margaret Moore, a young girl, played the role of Aunt Jane, and her performance was most successful.

## Mothers! Never Neglect Whooping Cough

Many mothers make the mistake of thinking that whooping cough is not of serious importance, but unfortunately this mistake often leads to the neglect of this dangerous child's disease.

Never neglect whooping cough, for it may be followed by some serious lung trouble.

Dr. Wood's Norway Pine Syrup is highly recommended by mothers everywhere for the relief of this trouble. It will clear the clogged-up air passage of the mucous and phlegm that has collected, and in this way bring on the "whoop" which brings the so-much-sought-for relief.

Mrs. Francis Burlingham, New Gate, B. C., writes:—"This spring three of my children took the whooping cough, and they had it so bad I thought they would choke. I was getting pretty worried when my sister wrote me, telling me to try Dr. Wood's Norway Pine Syrup. I sent for some right away, and, believe me, I will never forget how it worked. It will always have it in the house."

There are many imitations of Dr. Wood's on the market. Get the genuine when you ask for it. It will pay in the end. Put up in a yellow wrapper; 3 pine trees the trade mark; price 25c. and 50c. Manufactured only by The I. Milburn Co., Limited, Toronto, Ont.

and was instrumental in the success achieved.

J. J. McGrath and J. G. Hennessey had only minor roles, but essayed them in a manner which won for them a share of the plaudits. E. M. O'Toole in local theatricals J. Harold Drummie became very popular in the role of Bobby Baxter, a youthful but not without a few tricks, and it may safely be said that his success will be followed by participation in later endeavors.

## Twice-A-Month

## Western Canada—Centre of Drug Smuggling

IS Western Canada the centre of the illicit drug traffic of the continent? Does the underground system, by which the body and soul-destroying narcotics are distributed to the addicts of America begin on Canadian soil?

Official U. S. investigators say so, and in discussing the drug traffic in the March 15th issue of MACLEAN'S, Mrs. Murphy (Janey Canuck) acknowledges that there may be some truth in the statement.

In this article, the second in a series that she is writing after thorough investigation, Mrs. Murphy traces the ramifications of the underground system—how the drugs are smuggled in and the degrading methods by which it is done.

Mrs. Murphy's articles are beginning to stir things up in Canada on the drug question. Ottawa is showing an interest, the police of many cities are displaying unusual zeal, the newspapers are awakening to the menace. Mrs. Murphy will continue her series until she has laid bare the whole truth about this danger that is gripping Canada.

## Eight Months Adrift in the Arctic

By STORKER STORKERSEN

The remarkable story of how a small party of Canadian explorers, headed by the author, spent eight months adrift on the Arctic Ocean and came back safe and sound and with a wealth of scientific data. This story has been written for and appears exclusively in MACLEAN'S.
