

## SAINT JOHN MAN IN HIGH PLACE IN TRADE DEPT.

Wendall Clark Heads Commercial Intelligence Branch in Canada's Service

WAS TREATY MAKER FOR THE DOMINION

Impressed All in a Speech Made at Conference in Winnipeg

Another Maritime Province man who is making good in Canada is Wendall Clark, of the Trade and Commerce Department, Ottawa. At the Dominion Board of Trade conference in Winnipeg, one of the outstanding addresses was that of Mr. Clark. This young man, born in Saint John and educated in part in this city's schools and later in Sussex, has been instrumental in negotiating trade treaties between Canada and the various countries which have resulted in definite advantages to Canadian producers.

At Winnipeg, Mr. Clark was followed with the closest attention by the leading business men of Canada and was at various times pasted on Waterloo street and Victoria street Baptist churches here. The subject of the sketch is a nephew of the well known Saint John grocer, John W. Vanwart.

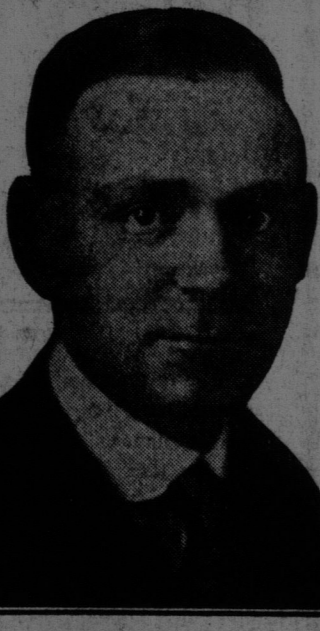

ONLY 34 YEARS OLD.  
Mr. Clark is but 34 years old, as he was born in 1892, in Saint John. He is a son of the late Rev. J. Wesley and Mrs. Clark. His father was a well known divine in New Brunswick and was at various times pastor of Waterloo street and Victoria street Baptist churches here. The subject of the sketch is a nephew of the well known Saint John grocer, John W. Vanwart.

He began his education in this city and continued it in Sussex. From there he went to the Ottawa Collegiate Institute, and for the higher branches of his studies to the University of Toronto. He had a brilliant scholastic career, and while at the Toronto University was a prize man in economics and won several scholarships in addition to five gold medals in public speaking and debating. He was graduated from the University in 1915 with honors in English, history and classics.

PUBLIC APPOINTMENT.  
Soon after his graduation, and in the same year that he received his degree, Mr. Clark, in 1919, represented the Canadian Department of Trade and Commerce at the Lyons fair, where Canada had large representation in a section of 72 stands. Also in 1919, he was selected for a special mission to Spain by the Minister of Trade and Commerce, and he afterwards published a report on this, in pamphlet form, on "Trading With Spain." Again, in the same year, he conducted a similar mission to Greece and wrote a pamphlet report on trading with that country.

SERVICES ABROAD.  
While carrying on his European duties, Mr. Clark, in 1919, represented the Canadian Department of Trade and Commerce at the Lyons fair, where Canada had large representation in a section of 72 stands. Also in 1919, he was selected for a special mission to Spain by the Minister of Trade and Commerce, and he afterwards published a report on this, in pamphlet form, on "Trading With Spain." Again, in the same year, he conducted a similar mission to Greece and wrote a pamphlet report on trading with that country.

that country. In the next year his duties took him, for a like purpose, to Egypt, and there was published by him a booklet on trading with the people of that country. In 1920 he carried out successfully a trade mission to Switzerland and also wrote a report on the results of his investigations there.

PAYS VISIT HOME.  
Mr. Clark had opportunity to visit Canada in 1920 on an official homecoming and he returned to Italy in the following year. That autumn he represented the Canadian Government at an inter-parliamentary conference of commerce held in Venice. Next year he was assigned a special mission to Tunisia, Algeria, Morocco, Spain and Portugal, and wrote trade reports on those countries. Further publication followed a mission in 1923 to Greece, Turkey, Roumania, Bulgaria, Yugoslavia, Hungary and Austria.

NEGOTIATING TREATY.  
In December of 1923 Mr. Clark was given by the Minister of Trade and Commerce the important task of negotiating a commercial treaty between Canada and Spain. He was successful, and after five months spent in Madrid his mission resulted in the effecting of a commercial treaty agreement between the two countries, which came into force on April 20, 1924. This was the first time that a Canadian trade commissioner was entrusted with treaty negotiations.

ON DELICATE MISSION.  
The Saint John man's success won for him still further recognition, and in June, 1925, he was chosen by the Minister of Trade and Commerce for a delicate mission to Greece, where he had in hand negotiations for the removal of restrictions on Canadian imported flour. In October, last year, came his advancement to the post of director of the commercial intelligence service of Canada, which is a branch of the Department of Trade and Commerce, in charge of the promotion of Canadian export trade.

A. M. BELDING RETURNING.  
Many will be glad to learn that A. M. Belding, who was taken seriously ill with pneumonia while visiting his son in White Plains, New York, before Christmas, has sufficiently recovered to permit him to travel. It was his intention, according to word received by his family, to leave White Plains yesterday for his home. It was thought that he would reach Saint John at the end of this week or early in the next.

ELECTED VICE-PRESIDENT.  
Mrs. A. B. Fowler was elected vice-president of the Willing Workers of the German street Baptist church at the annual meeting on Tuesday night.

## OPEN TENDERS FOR EQUIPMENT

Twelve Bids Received by Vocational Committee for Two Departments

Are Referred to The Advisory Committee—Eight Come From Local Firms

Twelve tenders for the equipment of the electrical and motor mechanics departments in the Saint John Vocational School were opened at the meeting of the vocational committee yesterday afternoon and two tenders, which were received after the specified time, were ordered returned to the senders. Of the twelve tenders eight were from city firms, two from Montreal firms and one each from firms in Halifax and Toronto. It was decided to refer the tenders to the advisory committee composed of employers and employees for a report and recommendation. John McKinnon will meet with these committees as the representative of the vocational committee.

THOSE AT MEETING.  
Dr. L. M. Curran, chairman, presided at the meeting. Others present were E. B. W. Ingraham, John McKinnon, Thomas Nagle, T. B. Carter, A. Wilson, Fletcher Peacock, the director of the school, A. Gordon Leavitt, secretary, S. A. Wood, acting superintendent of city schools, and W. B. Main, of the provincial vocational department.

The firms which tendered were as follows: City firms, Canadian General Electric Co. Ltd., H. M. Hopper, Canadian Fairbanks-Morse Co. Ltd., Maritime Radio Corporation, Emerson & Fisher, Ltd., A. R. Williams Machinery Co. Ltd., The James Robertson Co. Ltd., and E. S. Stephenson Co. Ltd.; Montreal firms, Rudel-Benap Machine Co. Ltd. and Maloney Electric Company of Canada, Ltd.; Cutton & Foster, Ltd., Toronto; and the Northern Electric Company, Halifax, and the other firms which sent tenders.

TAKES OBJECTION.  
H. M. Hopper voted objecting to the early date of the first call for tenders, pointing out that no delivery date was specified, and that the Canadian manufactured goods only and recommending that the Attorney General be approached to see if the sales tax could be realized, as the government is paying part of the bill.

Mr. Carter said he understood that equipment for scientific and educational purposes could be imported duty free. Attention was drawn to the fact that the committee must present its estimates for vocational education to the School Board in time to be handed on to the City Council.

Mr. Peacock was asked to draft an estimate of the cost of the new department of the vocational school and planning the layout of the laboratories.

J. A. Grant & Co. Ltd., contractors for the school quoted \$605 for plumbing and electrical work to be done in the laboratories and \$145 for roughing in plumbing in the canteen. This work must be done before the floors are laid, and the meeting approved of these quotations.

There are 27 students enrolled in the series of practical courses in automotive electricity and oxy-acetylene welding and cutting, work being held in the Saint John Vocational School garage and men and trade workers under the direction of the New Brunswick Vocational Board.

Ten of the students are taking the welding courses and 17 the electricity courses. As it is only necessary to have 20 students enroll for the classes to be held the number registered is considered very gratifying. Many of the students are from outside points, some having come from as far afield as Newcastle.

W. B. Main is giving the instruction in automotive electricity and supervising the course and B. W. Kelly is instructor in welding. The classes are held from 9 to 12 a. m. and from 1 to 4:30 p. m. each day and will run until March 9.

## GO FURTHER INTO MATTER OF HISTORY

Carleton G. W. V. A. Appoints Committee on School Text Book

A committee was appointed by the Carleton College of the G. W. V. A. at its meeting last night in the Carleton curling rink to go further into the matter of the use of Myers' History in the public schools. J. G. Hart, president, was in the chair and the meeting was largely attended. It was decided to make Mrs. C. H. Cochrane an honorary member and to present to her a gold pin and an illuminated address in recognition of the splendid assistance which she has rendered the branch.

Many matters of importance were discussed and after the business session there was social enjoyment. Refreshments were served and smoked that had been provided by Thomas Bell, M. P., were much enjoyed.

## 2 Year Old Glasses

New Glasses may make you see like a two-year-old.

But Glasses that are two years old or more may need changing to allow for the changing state of your eyes.

An examination may show your eyes have been improved by the Glasses to an extent that the Glasses are now a bit too powerful. Or the story may possibly be the other way around.

In any case, it is wise to have your eyes checked up from time to time. The safe time is while you have it in mind—now!

## SEE REDUCTION IN TUBERCULOSIS

Dr. H. A. Farris Makes Statement at Meeting of Prevention Society

There has been a decided falling off in the number of cases of tuberculosis in the City of Saint John, because of the intensive work of the Society for the Prevention of Tuberculosis and the beneficial effects of the county hospital work in the opinion of Dr. H. A. Farris.

Dr. Farris made this statement at the meeting of the Society for the Prevention of Tuberculosis yesterday afternoon, when he commented on the

## Don't dope YOUR COUGH

It is not wise to use remedies which depend upon "dope" such as narcotics, chloroform, camphor or tar products. They may stop your cough temporarily by numbing the tissues, as most cough mixtures do, but this is no enough.

The inflamed air passages must be soothed naturally, the germ-laden mucus loosened and expelled in order to effect a lasting recovery.

PERTUSSIN assists Nature to accomplish these results in a remarkably short time—and it is absolutely harmless.

fact that the number of patients attending the society's free dispensary has been growing less, and the number of children in the County Hospital has dropped to eight. He warmly commended the very thorough follow-up work of the dispensary nurses, Miss Hegan and Miss Brophy.

A. M. Peters, president, was in the chair. Mrs. Campbell Mackay entered upon her duties as secretary, taking over the work of Miss Katherine Bell had been doing.

The nurses' report showed 468 visits had been made during the month. Reports on the sale of Christmas seals showed receipts to date \$1,604.47. There were still 415 people to whom seals had been sent who had neither paid for the sale nor returned them.

RESUME MEETINGS.
