Preferential Minimum and Maximum Schedules Likely to Be Adopted-British Preference.

Ottawa, July 5 .- The tariff commis-

The tariff commission will probably hold its first sittings in September or October. Evidence in Ontario and Quebec will be first taken, then the commission ers will go East. When the maritim evidence has been taken the commission will go West. The last commission did not get beyond Winnipeg. This time it will go clear through to the Pacific coast, as a number of important interests have been developed in British Columbia since the last tariff was made. This inquiry will be rather more complicated than the last and may require more time. The commission of 1897 approached the tariff with an absolutely free hand with the intention of making a new one. This time it is understood commission will conduct an inquiry with the understanding that a three column tariff is to be made after the evidence is all in. There will be one column preferential, one minimum and one maximum.
