

"HOME TESTIMONY."

Want of space permits us to publish in this book only a few Extracts out of the thousands of testimonials we are daily receiving from all parts of Canada and the world.

NORTHPORT, Ont., Oct. 9, 1886.—I have used Perry Davis' Pain Killer for many years in cases of Rheumatism, Sprains, Pains in the Back and Limbs, etc., and never had it fail to give relief in every instance. In my opinion I consider it the best EVERY DAY remedy in the world, and it should have a place in every household. A. LESLIE.

MONO CENTRE, Ont., March 15, 1880.—Your Pain Killer takes well. Indeed, no house should be without it. For aches and pains it is a splendid antidote. WM. DENTON, Merchant.

BELLEVILLE, Ont., Feb. 13, 1880.—It is with pleasure that I testify to the popularity of Perry Davis' Pain Killer, and the great sale it enjoys here. The large and uniform demand for it is an evidence of its virtue, and when once used it needs no further advertising. It would be impossible to enumerate here the many cures it has effected. We hear of them almost daily. It is evident that the people in this locality appreciate the good qualities of Pain Killer. Very truly yours, L. W. YEOMANS.

BOND HEAD, Ont., March 13, 1880.—In this locality the Pain Killer requires no recommendation. It has stood the test of years, and in every case has given satisfaction. It is welcomed into every family with emotions of delight—banishing pain and giving instant relief.

Yours truly, A. H. CARTER.

"HE a doctor?" said old Chawbacon, speaking of a young practitioner. "Why, he could not cure a ham."

OSHAWA, Ont., March 19, 1880.—We take pleasure in adding our testimony to the popularity and efficacy of that old, time-honored remedy, Perry Davis' Pain Killer. We have been selling it for more than fifteen years, and notwithstanding the fact that the market has become flooded with imitations, it still holds its own, and stands today in the front rank as the most prompt and effective pain killer in the world. We once heard one of the leading ministers of the Methodist Church say that, with a bottle of Perry Davis' Pain Killer at hand, he feared no ill that mortals are subject to. It is a medicine to be relied upon, and after our lengthened experience we have no hesitation in allowing our name to stand on the list as friends of that old stand-by—Perry Davis' Pain Killer. Yours respectfully,

J. HIGGINBOTHAM & SON.

OTTAWA, Ont., March 12, 1880.—We have much pleasure in bearing testimony to the great popularity of Perry Davis' Pain Killer in this part of the country. We find a large and steady demand for it without any effort on our part in recommending it. We consider it one of our staple articles. A. CHRISTIE & CO.

NEWCASTLE, Ont., March 11, 1880.—I have handled and sold Perry Davis' Pain Killer for the past twenty-five years, and my customers who are in the habit of using it, speak in the highest terms of the curative properties and uniform preparation of the same. It has stood a severe test among the many dozens of similar preparations brought out in imitation of the old and genuine Perry Davis' Pain Killer, and to-day stands among the first in my estimation of them all.

R. FOTHERGILL, Pharmaceutical Chemist.
