## STILL IMPROVES.

President McKinley Able to Take More Nourishment.

Emma Goldman and the Other Anarchists Still Held in Chicago.

MILBURN HOUSE, Buffalo, Sept. 12.—The following bulletin was issued by the president's physicians: "9.30 a. m.—President passed a quiet and restful night and has taken much nourishment. He feels better this morning than at any time. He has taken a little solid food this morning and relished it. Pulse, 20; temperature, 100.3 degrees."

MILBURN HOUSE, Buffalo, N. Y., Sept. 12.—The news from the bedside of the sick president this morning was all that could be desired. He had slept well during the night, and was so much improved that he was given a meal of coffee, toast and chicken broth. His appetite was good and after his breakfast he appealed to Dr. McBurney to be allowed to smoke a cigar.

Dr. McBurney, who is looked upon as the Dean of the corps of physicians in attendance, decided this morning that he would be justified in going to New York to attend to some private business. Secretary Root also was scheduled to leave at 1 p. m., and Postmaster General Smith probably will go to Washington tonight. Secretary Hitchcock and Secretary Wilson will remain indefinitely.

BUFFALO, Sept. 12.—No attempt will be made to move the president to Washington until he is quite recovered, which, under the most favorable conditions, will not be until some time in October. Mrs. McKinley bears herself with great fortitude. Last night the president asked to be moved to another bed, and this was done. He has asked several things if there is any news he should know, but is not permitted to discuss public matters.

With regard to Czolgosz, five members of the cabinet, who are at Buffalo, are of opinion that his offense is against the State of New York, and that there is no federal statute to cover the case. In Chicago, Emma Goldman and the nine anarchists under arrest were brought before the court yesterday and further remanded without bail until Friday. Miss Goldman has engaged three lawyers.

MILBURN HOUSE, Buffalo, Sept. 12.—Today the sixth illness President McKinley received the wounds which now prostrate him, began with unpleasant weather. A rain which has been threatening for several days commenced soon after midnight and by morning it was coming down in torrents. All was quiet at Milburn house. The lights burned dimly and no one appeared to be moving about, so it was felt that everything went well. It showed that Mr. McKinley had passed a comfortable night with but little change in pulse and temperature from last night's regular official statement of his condition.

About 8.45 the doctors arrived for the morning consultation. The consultation was brief, the shortest since the president was stricken, and the physicians emerged with smiling countenances.

Dr. Mynter paused after he jumped into the morning to announce that everything continued "eminently satisfactory."

"The president has had a piece of toast and a cup of coffee this morning," said he, "in addition to a cup of beef broth. He will want a cigar soon."

"Will he be able to sit up soon?" "No, not for some time," answered the doctor. "Not until the exterior wound in the abdomen heals and grows strong and his heart action grows normal."

"What is the cause of his accelerated pulse?" "Oh, I cannot tell you, but it is nothing serious," answered the doctor. "Dr. Mynter added as he drove away that the exterior wound was progressing satisfactorily. The rain ceased about this time and the sky brightened. Dr. Mann, who remained for some time after the other doctors had gone, said that the patient could not be doing better."

CZOLGOSZ'S BIRTHPLACE. POEN, Polish Prussia, Sept. 12.—The family of Leon Czolgosz, the anarchist who attempted to assassinate President McKinley, hails from Cerkow, near Znin, in the province of Posen.

EMMA GOLDMAN. CHICAGO, Sept. 12.—Charles G. Morris, at whose home Miss Goldman was arrested, has been released by the police, there being no evidence against him.

CLEVELAND, Ohio, Sept. 12.—The police of a dozen cities are using every endeavor to obtain evidence that will demonstrate beyond a shadow of a doubt that Emma Goldman, the anarchist, held a number of secret meetings while in Cleveland last May, and it was at one of these rather than at the public meetings that she made the incendiary speech which inspired the mind of Czolgosz and caused him to shoot President McKinley. The police officials are assisted by every available man in the secret service department in this task. They will attempt to show that while in Cleveland meetings were held, at which the assassination of the president was planned.

Mathew J. Cloughlin, sergeant of detectives at Buffalo, in the city, working on the Goldman case. He will remain in Cleveland several days.

## CZAR AND KAISER.

BERLIN, Prussia, Sept. 12.—Emperor William, Prince Henry of Prussia, Admiral Tirpitz, the secretary of the admiralty, and others in attendance on the two emperors, dined with the Czar on board the Russian imperial yacht Standard after the imposing reception yesterday. The Czar, before dinner, personally bestowed the Russian foreign minister, with the order of Merit of the Prussian crown, and presented Baron Fredericks, minister of the Prussian imperial household, and aide-de-camp general, with the grand cross of the Red Eagle. The Czar and Emperor remained on deck until after 11 o'clock, looking at the illuminated vessels. In the meanwhile the Western or Blue squadron, which takes part in the manoeuvres today, put to sea, each ship saluting as it passed the Standard.

The Czar has appointed Emperor William to be chief of the Russian dragon regiment, Navy, No. 23, one of the most famous in the Russian army. Its former chief was admiral. The Grand Duke Constantine Nicolaevitch, Emperor William conferred with the Czar in the uniform of the Empress Alexandra's regiment, the second dragon regiment of the Prussian guard.

## BUSINESS DEMORALIZED.

Montreal Steamship Men Are Hoping That Manitoba Harvest May Pull Them Through.

MONTREAL, Sept. 12.—Leading Montreal steamship men state that the ocean steamship business at this port is demoralized at present. The recent activity in grain exports was merely the open acknowledgment of a condition that had been in existence for some time, but which they refused to recognize. The activity represented, in fact, the efforts of shipowners to secure what business was available, and in their anxiety to obtain it they allowed the question of rates to play no part in their calculations. The active business in question might, under the delivery contracts which had been agreed to abroad, have in many instances spread along well into next month, but the inducement to prompt action having regard to the exceedingly low ocean rates were so strong that practically all the grain purchased has been shipped, and shipowners now find themselves unable to obtain additional business at any rates.

MR. GARDNER, who represents Montreal shipping interests on the harbor board, attributes the present stagnation to a large extent to the return to the ordinary channels of trade of the vessels which found profitable employment last year as transports for the imperial service in the South African war. Moreover, the abnormally high rates obtainable last year caused unprecedented activity in the ship-building yards, and the new vessels that were built are competing with the older ones for a business which has been greatly reduced in volume by the fall-out of the American corn crop. Shipowners are only hopeful that the situation will be only temporary, and that with the large grain harvest from the northwest they will be able to pull through.

## MUST SUPPRESS ANARCHISTS.

(Washington Post.)

Czolgosz is the fruit of our indiscriminate encouragement of "refugees"; of our confusion of liberty with license; of the almost criminal negligence of the ordinary channels of trade into the hands of aliens who barely speak our language, who are incapable of understanding our institutions.

(Philadelphia Times.)

It will be of no service to punish Czolgosz, unless Emma Goldman goes about the country instigating fresh assassinations and groups of anarchists openly meet to celebrate the crime against humanity. Such meetings, such teachings, are themselves a crime, and should be so recognized, and so treated by stringent penalties.

(Chicago Chronicle.)

It was no mere man against whom the assassin's arm was raised. It was no personal foe. No heat of passion nerved the hand or clouded the brain of the malignant wretch who did this thing. It was one man against eighty millions—one man against the government and the laws of eighty millions. The bullets aimed at the president were urged by their course by an insensate hatred not of him as a man, but of the institutions for which he stood. If the president of the United States must take his life in his hands when he ventures abroad the fact must be appreciated and he must govern himself accordingly. If the free choice of the people must be ever on the alert for an assassin, if he is to be hunted like an animal and shot like a dog, he will have to be hedged about as are they who assume to rule by divine right, and suitable measures will have to be taken to punish those who make a business of it, not a livelihood, by promoting conspiracy and murder.

## THIS HELPS UNCLE SAM.

Imports of iron and steel and their manufactures into Cuba during the calendar year 1900 from all countries reached a value of \$4,731,596, against \$2,950,845 during 1899, an increase of \$1,780,751 or 62 per cent. Imports of these commodities from the United States in 1900 amounted to \$2,655,528, against \$2,395,599 in 1899, an increase of \$259,929, or 11 per cent.

## THE FIRE RECORD.

Particulars of St. John's Blaze Not Yet at Hand.

Robbery and Arson at Pugwash—A Heavy Loss—Other Fires Reported.

MONTREAL, Sept. 11.—Fires broke out at midnight in the paint shop of the Dominion Transport Company's building. Damage, \$5,000; stock, wagon and carriage.

NEW YORK, Sept. 11.—News from St. John's, N.B., A dispatch to R. G. Dunn & Company, stated that pyrites on the south side, owned by Brine, Johnson & Company, general merchants, had been destroyed. These are supposed to be the best oil factories of the firms mentioned. Both are covered by insurance. Another Coopers Company's establishment, in the loss on this was heavy, and is not more than half covered by insurance. The advice received in the afternoon from St. John's, mention no other losses, but the distance between the properties named is considerable, and it is possible that there was further destruction.

The fire started in a coopeage in consequence of the explosion of a boiler. Two men were killed and several others injured. The crew of H. M. S. Alert helped to extinguish the conflagration. The loss is very heavy.

NEW YORK, Sept. 12.—Fire broke out late last night in the cotton storage warehouse owned by the New York storage company in Brooklyn, and up to 9 a. m. had caused damages to the amount of \$500,000. The fire was burning fiercely at that hour and the firemen seemed unable to subdue it. The building, which is three hundred feet long, is divided into three compartments each, separated by a thick fire wall. The compartment in which the fire had been confined contained 30,000 bales of cotton.

The new brick store and warehouse of W. H. Brown at Pugwash were destroyed by fire yesterday morning. He had just erected the buildings and had them fully stocked and has no insurance. The origin of the fire is a mystery, but it has been found that the fire was blown open, in which were \$450 and valuable papers, and robbery and arson are suspected. The whole town narrowly escaped destruction, as water had to be carried from the river 300 yards away.

## THE STEEL STRIKE.

YOUNGSTOWN, Ohio, Sept. 12.—President W. E. Correy of the American Steel Hoop company, arrived in Youngstown yesterday afternoon with other officials of the company. They will hold a conference today with the Amalgamated men regarding a settlement of the strike.

## A BIG SWINDLE.

CHICAGO, Ill., Sept. 12.—Secret service men in this city believe they have unearthed a gigantic swindle in making of counterfeit cigar labels. It is said that dealers in and around Chicago have been defrauded of sums aggregating \$150,000. The information leading to the investigation was given to the government officials by members of the International Cigar Makers' union. It is said that sufficient evidence has been secured to warrant the arrest of eleven persons, who will be taken into custody today or tomorrow.

## TO MEET THE OPHIR.

SYDNEY, N. S., Sept. 11.—The British cruisers Indefatigable and Tribune, together with the torpedo boat destroyer Quail, left port this afternoon to meet the royal yacht Ophir, at the entrance to the Gulf of St. Lawrence. On board the Indefatigable is L. Morin, of Quebec, who is to pilot the Ophir to her destination. Morin will be put on board and the cruisers will then accompany the yacht to Quebec. They expect to meet the Ophir tomorrow or Friday.

FISHERMEN'S VEHACITY. (Baltimore News.) When Mr. Cleveland's fishing party were overtaken, the other day, by the game warden with a bass under legal length in his possession, each of them claimed to have caught it. Question:—Was each actuated by the laudable purpose of shielding the other, or was it but another illustration of the alleged fact that even the best and most reliable of men under ordinary circumstances find it a physical impossibility to conform strictly to the truth in tales concerning their piscatorial exploits.

CLAY PIPES AS SOUVENIRS. Mrs. McKinley was the recipient recently of a number of clay pipes. These pipes are made in many foreign countries, France excelling, however, in their manufacture. Some of them are really beautiful in ornamentation, and are done often in high relief, white and red enamels. Growing in popularity as favors at luncheons and dinners, they will hold a prominent place this winter among the pretty, but often costly, trifles presented at card parties and cotillions. The debonair will decorate her room with these pipes and they will be her especial pride among the trophies of the season.
