

File - 21005-2A.

Ottawa, June 18th, 1946.

Memorandum

**Mr. W. M. Cory,
Departmental Solicitor.**

**Re: Quebec Hydro on
Caughnawaga Indian Reserve.**

The Hydro Commission quote R.S.Q. 1941,
Chapter 98A as their authority for expropriation.

The Commission already has a right of
way which it appears might accommodate the lines they
now require.

Does their authority enable them to take
an additional right of way?

Please advise what authority is to judge
the need for an additional right of way. Should they
be required to establish in the Exchequer Court their need
for an additional right of way?

JK
for D. J. Allan,
Superintendent,
Reserves & Trusts.
