WALL ST. PEEVED **OVER NEWSPAPER REPORTS ON WAR**

Claimed That Much That Published Bewilders the Market.

THE PROFITEERS AND **CENSORS CRITICISED**

Long Accounts Are Being Reduced in Some of the

Equipments.

(McDOUGALL & COWANS).

New York, March 21.—We take occasion to warn active investors not, to place too much credence in newspaper reports of matters affecting the war, it will be the padded cell for them if they do. Between the ramifications of the German publicity agencies and the allied and Washington counterpropaganda, it will take more than a Philadelphia lawyer to separate the wheat from the chaff and the most of it is plain take chaff. The public would be surprised to know how little real news is printed unvarnished. It is small wonder that the market acts bewildered. There are good reasons for believing that the great game of profiteering—first played by capital and now by labor—will soon come to an end, honest men and the real people get their due, and the war prosecuted with that efficiency without which it will be jost to the Allies. With the profiteer will go the bigoted enosor. Those in the investment community who are reading the hand community who are reading the hands writing on the wall are becoming reasons withing on the wall are becoming reasons withing on the wall are becoming reasons the final proposition to stand reactions. the company has returned to proper more than \$50 a share, somethin which is inducing absorption of the common stock.

Evidently this Wall Street authority refers mainly to certain newspapers in the United States, for it is probable he does not intend to condemn the war news of all newspapers any more than the newspapers or the public would condemn all brokerage houses, because there may be shysters among them. Wall Street knows that the newspapers are under strict censorship, and there is a heavy penalty for the dissemination of false reports in connection with the war.

For military reasons it would not do to publish everything connected with the war. Each government issues statements two or three times daily, and announcements are made from time to time in the House of Commons. If American papers are printing "fake chaff" there should be a remedy at Washington.

CORN PRODUCTS

(McDOUGALL & COWANS).
New York, March 21.—Corn products common stock is again being brought to the front very prominently in active western speculative channels, and there are reasons for believing that a strong pool is buying the stock for distribution at an advance of 10 to 15 points later. The outlook is for a period of high earnings so long as the war lasts, and for a long time afterwards.

It is expected that average net revenues will be higher than at any time in the past. (McDOUGALL & COWANS).

CORN MARKET MUCH STRONGER

Active Demand from Export ers Carry Oats Market Up -Pit Bare of Offer-

Chicago, Mar. 21—Continuer falling off in receipts here put fresh strength today into the corn market. It was generally accepted that favorable conditions for field work would still further restrict the crop movement. Buying, however, was of only a scattered character. After opening unchanged, with May 1.25%, the market scored a substantial advance.

BRIG. GEN. CAMPBELL SERIOUSLY HURT

Well Known Imperial Army Officer Loses an Eye but is Otherwise Unhurt.

Fredericton, March 21.—Word has been received here that Brig, Gen. Herbert Montgomery Campbell, of the Imperial Army, has been seriously wounded, losing one eye. General Campbell is a brother of Lieut-Col. Henry Montgomery Campbell of Apofiaqui, who went overseas as officer commanding the 64th Battalion and is a native of Fredericton. Brigadier General Campbell has had a lengthy military career. When little more than a boy he was commissioned in the Imperial Army and served in various parts of the world in the Royal Artillery. He saw service in India, South Africa and elsewhere prior to the outbreak of the present conflict.

Mrs. C. F. Deacon, of Charlottetom, sister of General Montgomery Campbell, who is residing in Fredericton at present received a London cable today which contained the information

ntiment is Drifting Owing to Half Dozen or More Uncertainties.

(McDOUGALL & COWANS). New York, March 21.—A bull trading market subject to narrow superficial changes according to professional whims, seems to be on the programme for the present. Sentiment is drifting owing to the half dozen of more uncertainties which are pending but which may be removed in the next few days, so far as the perspective is boncerned.

It is noted that there is buying of standard issues on declines, but that on rallies some readjustment liquidation appears in connection with the Liberty loan floatation now approaching. Pool channels continue to bull E. F. and National Lead.
