Will Not Approve the League of Nations Covenant Without Making Such a Demand, According to Speakers.

STRONG DEBATERS HEARD YESTERDAY

Mr. Rowell, on Behalf of the Gov't, Made a Masterful Analysis and Defense of the League.

Special to The Standard. Ottawa, Sept. 9.—It is beginning to look as though the opposition will decline to approve of the League of Nations covenant without demanding a reservation. That, at all events, is the inference left by the speeches delivered today by Mr. Ernest LaPointe and Mr. Lucien Cannon. "We must make sure," said Mr. LaPointe, "that the supreme power of the parliament of Canada is not infringed, and, for my part, I would favor an amendment to the effect that nothing in this treaty shall be held to impair the rights and privileges of this parliament. It must be made clear that no Canadian soldier can ever be forced to war, or sent anywhere but by the consent and authority of the Parliament of Canada." Equally emphatic were the words of Mr. Cannon. "I do not think we should give our approval to this article, (article ten), he said, "without reservations preserving the supreme authority of the Canadian Parliament in the matter of making war."

On the other hand, Mr. Rowell, who tackled the subject of the great occasion which it marked. Mr. LaPointe, who led off for the opposition, possesses a broad grasp of imperial and international affairs, and his analytical mind, his oratorical ability, and the genius of his race, for mastery of constitutional affairs.

PEACE TREATY GOES TO UNITED STATES SENATE TODAY

Advocates and Opponents of the League Preparing for the Battle Which Begins on Monday Next.

Washington, D. C., Sept. 9.—The German Peace Treaty, six months in the making, will be returned to the Senate, tomorrow, by the Foreign Relations Committee, along with a majority report containing amendment to the treaty and resignation to the League of Nations covenant.

Regarding the League of Nations, Mr. LaPointe was favorable to the principle of such a project, but he was fearful that the present league was merely a new guise for the old balance of power. What other conclusion could there be, he held, despite the league, the spectacle was seen of the United States government increasing the strength of its army to five times of what it was before the war, and of Admiral Jellicoe advising the creation of an Australian navy that would saddle that country with an enormous burden of expenditure.
