THE NEW OXYGEN TREATMENT.

Maybe you read the other day an account of an "Oxygen Hospital," and the manner in which scientific men are applying this element to the cure of disease. Medical men are beginning to understand that we can do a lot of things with oxygen besides breathe it.

Powley's Liquified Ozone is demonstrating every day the many different applications oxygen can be made use of in relieving disease.

In treating stomach disorders, dyspepsia, dysentery catarrh, and other summer ailments Powley's Liquified Ozone is invaluable. It can be made a most refreshing beverage, and it prevents other and more serious disorders by keeping the system healthy.

John Small, Esq., Collector of Customs for the port of Toronto, has given us permission to refer enquiries to him as to the value of Powley's Liquified Ozone in curing stomach and summer ailments.

You should experience the cooling effect of drinking diluted Ozone whenever you feel overcome by the heat. It refreshes you wonderfully.

Dear Mr. Kerr,—... Combining the
two courses your college fits a young man
for most any kind of office position. When I
took my present position as secretary to the
President of this Bank, I was a little in
doubt as to whether I could hold it, but I
found that the training you gave me was
just what I needed, and that I was equal
to the occasion. ... One does not realize
at the time of taking it what the course of
training is doing for him.
