

EDITOR'S CHOICE

**NEAT STUFF -
Peter Bagge
(Fantagraphics
books)**

Its a crazy, crazy world that Bagge's rubber creations inhabit but sometimes its so breathtakingly real that one has to pause for breath. Meet Girly Girl the enfant terrible that makes Attila the Hun look like runny margarine. Studs Kirby all American bastard redneck that is frighteningly reminiscent of the bigot in all of us. The Bradley Family, next door neighbors from hell and of course Chet and Bunny Leeway the loving ordinary couple that can be bitching about personal habits one moment and dissolving into a Picasso (literally) in the next. Totally cool, totally neat and boy is it ever funny.

Peter Bagge's Studs Kirby deals with his current problem in a familiar manner.

Peter Kuper lets his imagination run riot when considering a day in the life of a New York cabbie.

**NEW YORK NEW YORK
Peter Kuper
(Fantagraphics
books)**

Kuper is arguably one of the finest illustrators on the market today. Such is his breadth and depth of talent that one naturally assumes that about ten different artists have contributed to this collection. Such is the varied brilliance of this talented man. New York New York delves into the very darkest aspects of the urban psyche with fantasies and concepts so wild that you'll be a quivering mass by the end of this delirious ride into the everyday crisis of some one you may actually know.
