NOTICE FIRE ALARM BELLS

The sounding of fire alarm bells in any building must be interpreted as indicating that an emergency situation exists. In these circumstances because the effects of fire, fumes and smoke are so unpredictable all occupants are to evacuate the building immediately, using the appropriate stairway. Elevators should not be used.

Students are requested to give all possible assistance to others with physical disabilities, to whom the stairways may present a problem.

Under no circumstances should occupants re-enter a building until advised that it has been declared safe by the Fire Department or the University Fire Marshal.

The University can accept no responsibility for members of the community who choose to disregard the above instructions.

**E.C. Richards
University Fire Marshal**
