My Dear Mr King :-

I never dreamed that Walsh would "go for you" in such fashion : but I notice by the reports that the hair flew at the first round .

Walsh must have become hot at once after I gave him my cordial hand shake . It may have struck him that I intended it as a substitute for a bit of "candy or a cookie" after a spanking ?

I want to express my pleasure in meeting you and in having these few days together: and I trust your becoming associated with the Messrs Rockefeller in one of their great undertakings, may be most satisfactory in its operations and you very happy in conducting it . I congratulate them in being able to secure the services of so thoroughly equipped and amiable gentleman for this work, in these times of peculiar unrest and unsolved problems facing us.

While I may not anticipate long active service with these gentlemen, with whom I have been most delightfully associated for nearly a score of years, I am glad to have had the great pleasure of these few days with you in their interest and I believe cleared up a lot of things that will be to their advantage and for the common good as well.

Wishing you every success and the blessing that a good Providence may favor you with for your loyalty to Him and to his own creatures who sorely need a helping hand at times, which this fund is intended by its donor to confer, and you to help administer.

Yours very truly

Mr MacKenzie King
26 Broadway.
