Re CF-DHT

A review of the Canadian Civil Aircraft Register and of our files has been made and it is recorded that the last Certificate of Airworthiness No. 1405 issued for DeHavilland aircraft, registered in your name, lapsed on September 10, 1955.

In view of the considerable length of time that this aircraft has been inactive, you are requested to immediately advise this office as to the present status of ownership, airworthiness and location of this aircraft.

If this aircraft is to be permanently withdrawn from use, then a statement requesting cancellation of Certificates of Registration and Airworthiness of this aircraft should be forwarded without delay, together with the said certificates. Section 207 of the Air Regulations refers.

Yours very truly,

(T. M. SAUNDERSON)

Regional Superintendent, Air Regulations
