

HANDY HELPS

TO
USEFUL KNOWLEDGE.

PUBLISHED WEEKLY, PRICE ONE PENNY.

The Conductor would wish briefly to state the aim and object of this Series of "HANDY HELPS TO USEFUL KNOWLEDGE."

In the first place no attempt will be made to give a consecutive arrangement to the subjects.

The topic most interesting at the moment will be seized upon for exposition and illustration, and, in the absence of any engrossing subject, one of a homely and reasonable character will be selected.

The aim of the Conductor will be to make the Series always timely, always practical, always useful—in fine, "HANDY HELPS" will endeavour to give the right help, at the right time, on the right subject, by the right man.

"Unexceptionably cheap and unequivocally clever."—Sunday Times.

"This marvellous pennyworth."—Weekly Dispatch.

"Handy Helps, and Cheap Helps, and Clever Helps, too."—Bradford Observer.
