veal calves are scarce, and wanted. They are worth \$6 and over a ewt. Other grades sell at \$3.50 to \$4.50 a ewt. Tones are worth from \$3.25 to \$3.75 a ewt; and rams \$3 to \$3.25. Spring lambs are firm, and higher at \$7.50 to \$8.25 a ewt. Though no hogs were offering, packers were quoting \$6.65 lb. at country points, \$6.90 fed and watered and \$7.10 at packing houses. Drovers report prices as high as \$6.75 at some country points—J. W. W.

PETERBORO HOG MARKET

Peterboro, Ont., July 18, 1908. The large deliveries of Dutch and Canadian bacon on the English market have caused a decided weakness there and as a result the Canadian market has also been affected. The price of hogs in Canada are fair. A drop in prices is expected. The Geo. Matheys Co. quote the following prices for this week's shipments: f.o.b., country points, \$6.65 a ewt; delivered at abattoir, \$6.75.

MONTREAL HOG MARKET

Montreal, Saturday, July 18th. —The market for live hogs this week has eased off a bit after the sharp advance of last week, and prices this week have ranged from \$6.75 to \$7 a 100 lb. for selected lots weighed off. At this price the demand was fairly good. The market closed fairly firm, with every prospect for a firm market next week.

Quotations for dressed hogs were firm from \$9.75 to \$10 a 100 lb., with a fair demand from town and country.

EXPORT BUTTER AND CHEESE

Montreal, Saturday, July 18th. —We have had an exciting week of it with prices soaring at country points until they have reached such dizzy heights that they are bound to react, and it looks at this moment as if the reaction had already come, as cheese are being bought in the country to-day at 11 1/2¢ and 11 3/4¢, whereas yesterday prices were being run up as high as 12 3/4¢ in some cases. The ruling price for the week was practically 11 1/2¢ as the bulk of the cheese offered sold at that figure. The advance was due almost entirely to the demand that came on from the other side as well as from local dealers, all of whom were possessed with the idea that the make, which has been short so far this season on account of the warm and dry weather that has prevailed for the last few weeks. Dealers were prepared to buy freely at around 12 1/2¢ to 13¢, but it remains to be seen if they will continue buying at 12 and over, which is certainly a record price for July, which are now for sale, and is rather high for storing purposes.

The shipments this week amount to 75,000 boxes and leaves a few cheese over the receipts of the week to go into stock.

The butter market is also firm, and though prices are not much higher than they were last week, it is quite evident that there is not going to be any reaction from the high level reached last week. We have had little demand from the other principally for storing purposes, and local dealers are inclined to buy and put away a few for future requirements. Prices

horses. Some years ago Mr. Logan commenced breeding Ayshire and built up a splendid herd, which won a number of prizes at the Exhibitions in Eastern Ontario and the Province of Quebec. A few years ago, owing to failure of health, Mr. Logan sold nearly all his stock at auction and took life easier for some time. When his health improved, he commenced to build up another herd of Ayshires, making his selections from some of the best herds of the district and also a number of imported animals from the herd of B. B. Ness, until his herd now numbers about 60 head of animals of select breeding. He had combined quality, Ayshire type and dairy qualifications.

The stock bull, Nether Hall Good Time, imp. is of Thos. Scott's breeding and is perhaps one of the best bulls that has crossed the water so far this season. He combines strong character with quality, size, style and perfect conformation. His winnings last year as a yearling were 1st at Toronto, Sherbrooke, Ottawa and at the National Dairy Show, Chicago, Ill. He also Junior Champion at the latter place. For the females, one of the Byrnes 2043, is a large heifer of great substance, and true to type. She has given a good amount of her calf freshening last September. Ardene Janet B. 2003, bred by McAllister in Scotland, is a heifer of fine quality carrying a nice udder. Auchincloss Hattie from the Wallace herd looks like as if she would develop into a great dairy cow. She was sired by the Holsteiner Daisy bred in Scotland.

The two-year-old Morton Mains Bell, is certainly a beauty, perfect in form with the promise of grand udder development. Her sire is the noted Morton Mains Morton Castle. Ardene Carnyette 2nd, is a "peach" and is as yet a yearling as one would wish to see. Some of these heifers were prize winners at the leading fairs last fall. Of home breeding is Burnside Blonde, 2627, a choice heifer from Barchess Kings Own, 2075, as is also Burnside Blonde 2622, Burnside Governors, 2625, and Burnside Governors 2nd, 2624, all of fine type and character. Sunnyside Belle, 2629, by Leader of Meadowbank, and Little Kilgory Governor are also young heifers that will add another stable as they develop into mature animals. Mr. Logan has a number of young calves of prize type which promise to develop into high class dairy cows. He has certainly made a good selection both as to quality, type and dairy performance. Stock men should not fail to see this herd when they come to Howick.

W. W. BROWNBRIDGE.

Ashgrove is situated between Milton and Georgetown in the country of Halton. It is the post office address of W. W. Brownbridge, who is a breeder of No. 1 Berkhams. His stock is mostly of the Compton and Wandsworth strains, He has four grandly bred imp. sows in his breeding herd. These are from prize-winning stock that has won at the leading shows in England. Some of the Canadian bred sows were prize-winners here. They trace to the noted Longfellow Line. Brownbridge has shown at the Provincial Winter Fair but once, 1906, when 9 entries took prize each. Since then, several of which were 1st and 2nd prizes. This was in strong competition, and is a record for the province. He has shown at the Winter Fair, even by an old exhibitor.

The stock board leading this herd is Sally's Ensign, by Sally's Sambo, imported from England and sired by B. B. British Sovereign, imp., a silver medal winner at Toronto, whose dam was also imported. Mr. Brownbridge is prepared to supply you with excellent stock either for

breeding or show purposes at very reasonable prices. When you write him, mention this paper.

ALEX. HUME & CO.

From reports received the stock being offered by Alex. Hume & Co. is of the best. They have several bulls from one year to two months old that have been bred for production. They also have several young heifers that are just being bred that have every indication of being excellent producers. Well bred Ayshire stock at reasonable prices is a feature of this firm. Their stock now numbers over 75 head and is one of the best in the country. Intending purchasers will do well to meet at Howick station G.T.R., if notice of their coming is sent to Alex. Hume & Co., Menan, Ont.
