

Holsteins of the Type owned by A. E. Hulet, Norwich, Ont., and Picked by Jas. Rettie for Championship and First Place Honors at the recent Canadian National Exhibition.
To the left is Prince Abbecker Mercens, Senior and Grand Champion Holstein bull at the Canadian National Exhibition this year. To the right is his son, the first senior calf, Prince Colantha's Abbecker. Both were exhibited by A. E. Hulet, who won first place in 13 out of 25 sections. Note the low down, deep bodied, strong constituted character of these animals. And note also the quality and refinement that accompanies lots of substance. This is the type of Holstein that people are eating for nowadays. All of the old bull's daughters are both show animals and producers: his 3-yr.-old daughters have records of 19 lbs. butter in 7 days, 3-yr.-olds up to 2 lbs. per day.

MARKET REVIEW AND FORECAST

Toronto, Monday, Sept. 8.—It is well to see ourselves as others see us. In this instance an outside view of the economic conditions grows interesting. In summing up conditions in general the New York Times says: "On the whole there seems to be nothing very much the matter with the country. The more or less startling economic position of Canada has been discussed with a frankness and intimacy quite uncommon. To confound the financial doctors who go on doing business pretty much as usual, though borrowing less and reappraising some things, especially real estate, at lower prices. The thing most talked about has been the furious real estate gambling. That could hardly be viewed with a country in the making. One of the shrewdest bankers in eastern Canada, when asked what would happen if the townsite boom collapsed, replied: 'Nothing, except that a good many people would find they were not so rich as they thought they were.' That is wisdom. Neither a collapse in the townsite boom nor a financial prostration, if the very worst did happen, could matter much to the real future of Canada."

WHEAT
The wheat market seems to be passing through a somewhat nervous state. This might be naturally expected until the crop is reported to be 600,000 bushels short. Prices have this week taken a four-cent jump. Oats are quiet, normal.
