

SHE HAD CONSUMPTION.

Dr. Wood's
Norway Pine Syrup
Cured Her.

Weighted 135 Pounds—
Now Weighs 172.

Mrs. Charles McDermott, Bathurst, N.B., writes:—"I thought I would write and let you know the benefit I have received through the use of Dr. Wood's Norway Pine Syrup. Three years ago I had consumption. I had three doctors attending me and they were very much alarmed about my condition. I was so weak and miserable I could not do my housework. While looking through your B.B.B. almanac I saw that Dr. Wood's Norway Pine Syrup was good for weak lungs, so I got a bottle at the drug store, and after taking ten bottles I was completely cured. At that time I weighed 135 pounds and now weigh 172, a gain of 37 pounds in three years. I now keep it in the house all the time and would not be without it for anything, as I owe my life to it."

Dr. Wood's Norway Pine Syrup contains the lung healing virtues of the Norway pine tree, which, combined with other absorbent, expectorant and soothing medicines, makes it without a doubt the best remedy for coughs, colds, bronchitis and all throat and lung troubles.

Price 25 cents at all dealers. Beware of imitations. The genuine is manufactured only by the T. Milburn Co., Limited, Toronto, Ont.

QUESTIONS AND ANSWERS.
Veterinary.

COLIC.

Mare was fed on hay of poor quality, and she had two attacks of colic. The food was changed to hay of good quality, and there has been no trouble since. Would it be wise to breed her? In case she were bred and suffered from colic, would the ordinary colic remedies be likely to affect the fetus or cause abortion?

H. W. H.

Ans.—No doubt the attacks of colic were caused by the poor hay, which is hard to digest. The ordinary treatment for colic will not affect the fetus or cause abortion. It will be reasonably safe to breed her, but of course there is no guarantee that any mare will carry her fetus to full term and produce a strong foal.

V.

FATAL DIARRHOEA—CURB.

1. Mare produced a foal that could rise and nurse with a little assistance, but did not nurse freely. I injected linseed oil into the rectum, but it had no passage in 24 hours. I then gave it flaxseed tea, and in 12 hours longer the bowels moved naturally. In 6 hours longer it took acute diarrhea, the evacuations soon became reddish and it died. A post-mortem revealed the bowels very reddish.

2. A curb appeared on mare. I blistered it, and then used your absorbent of iodine, iodide of potassium, alcohol and glycerine. The lameness has disappeared, but the enlargement has not quite gone. How had I better treat now?

A. H. McK.

Ans.—1. The colt was weak when born. It would have been better to have depended upon injections and the oiled finger to remove the meconium from the rectum. The flaxseed tea was in all probability the direct cause of the diarrhea, along with the fact that the foal was not taking sufficient nourishment. If it had been given two teaspoonfuls of laudanum in a little of its mother's milk every two hours after diarrhea commenced it might have checked it. Acute diarrhea in a foal a day or two old usually results fatally.

2. Continue the absorbent, and have patience.

V.

Miscellaneous.

DITCHING.

Two farms, A and B, side by side. The water flows off A's into B's farm through two open ditches. B is tiling all his land. Will A have to tile to meet B, or will B have to maintain open ditches to accommodate A?

Ontario.

Ans.—This is a matter to be disposed of by the municipal engineer, under the Ditches and Water-course Act, if the parties are unable to agree. They ought to get together and earnestly endeavor to come to a suitable agreement and save such proceedings.

TRADE TOPIC.

EASY WASHING.—High praise for the Easy Washer is contained in a published letter by T. B. Terry, the noted farmer and agricultural writer of Ohio, who volunteers a testimonial in the interest of easy housekeeping. "I did the first washing myself, that is, put in the water, ran the machine, emptied it, and turned the wringer. I am ready to do the same again, but deliver me from helping when the old machine was used. Wife can now stand up straight, and scarcely more than lifting her dry hand up and down a short distance, wash a tub full of clothes in a few minutes. This washer is years ahead of any other washing device I have seen." The "Easy" Washer Co. are offering through their advertisement, 30 days' trial in the home anywhere on earth. Write the "Easy" Washer Co., corner Dundas and Bruce streets, Toronto, Ont., mentioning "The Farmer's Advocate."

NO DOUBT.

Mrs. Patterson Oh, yes—we can trace our ancestry back to—well, I don't know who, but we've been doing for centuries."

The Secret of Pure Sweet Milk

You dairy farmers can't afford to ship impure, germ-laden milk into the towns and cities. Our medical authorities are urging the Government to penalize offending dairymen very severely—don't you run any risks. If you pass all your milk through the Root Cooler-Aerator immediately it leaves the cow, you can guarantee it pure and sweet and get a bigger price for it per gallon. The

Root MILK SANITARY Cooler-Aerator

will keep the milk sweet for 48 hours because it kills the animal heat quickly and cools the milk to the same temperature as cold running water.

"It's so easy to clean."

The water is admitted at the bottom tube, then from the water column in the second tube and so on until it reaches the top of the cylinders, a e kept perfectly cold all the time, and as they are deeply corrugated the milk flows down them slowly, reaching the rotating pan thoroughly cooled and aerated. Cylinders are made of heavy copper, heavily coated with pure tin and guaranteed to stand heavy water pressure. Perfectly simple to operate—no complicated parts—a child can easily clean the whole machine in 5 minutes. Made in various sizes—will cool from 40 to 75 gallons an hour. Write us today for catalogue and prices—every dairyman should have a Root Cooler—it's a big money-maker. Address:

W. A. Drummond & Co., 175 King St. East, Toronto

Standard Wire Fence

Here's the Fence That is all Steel—Steel wires, steel locks, steel posts. Standard Woven Wire Fence is all No. 9 hard steel wire, well galvanized. "The Tie That Binds" is hard, smooth steel that holds uprights and running wires absolutely secure without injury. Standard Patent Posts are 12 gauge steel, bent at right angles, and so constructed that wires are held without staples. Let us tell you a lot of other things about the Standard Wire Fence and our Metal Gates of Galvanized Tubing. Our books are full of fence facts. Write for free copies and sample books.
