Increase Your Protection

A recent report of the Civil Service Commission states that while \$1000 a year supported a family of five in moderate comfort before the war, owing to the increased cost of living \$1550 is necessary today.

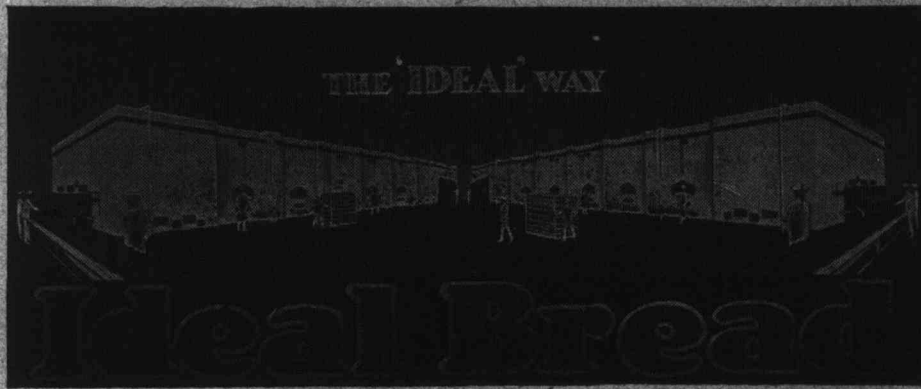

According to the above report \$1.55 has only the purchasing value now that \$1.00 had in 1914.

In view of this do you think your Life Insurance would be sufficient to protect your household in event of your death? To have the same protection today as in 1914 your insurance should be increased at least 60%.

There is a Mutual agent in your vicinity. We have the right class of policy to suit your requirements.

COUNTERACT THE UNFORESEEN

EVERY thinking man has Life Insurance protection or intends to have it, assuming that he is a good risk. Every worthy, healthy man believes he can support his family, educate his children, and provide for his widow, besides leaving his Estate clear of debt.

IF

business continues good, if his Bank doesn't fail, if "hard times" don't come, if he does not get sick, if he don't DIE—but he knows that such events *do* happen, it is generally, if not always, the unexpected that happens; that it was to counteract in large measure the results of these unforeseen events that Life Insurance was originated, therefore as a wise man he should lose no time in securing a CONTINENTAL LIFE INSURANCE POLICY and provide for all his needs and contingencies.

It cannot restore the dead or take the place of lost companionship, but it perpetuates your love, and makes life at least endurable for those left behind, which is worth all its costs. Don't delay, but make certain provision *now* for the uncertainty of life, in the only sure way you can.

See your nearest Agent of the Company, or write to either of the undersigned at Head Office for full particulars, stating your age at nearest birthday.
