## I Give My Belt Free Until I Cure You

That's a fair and square proposition

### FREE UNTIL I CURE YOU

No man can make it unless he knows what he can do. I'm no novice in the business of curing men. I've been at the business twenty-four years, and in that time have learned that Electricity will cure hundreds of cases where nothing else will.

I know what kind of cases I can cure, and will not take a case that I cannot. When I found that I could feel sure of success in certain cases, I saw then that it was possible to make this proposition—no pay unless I cured you.

There may be some people who would not pay me when I cured them. There is no doubt, however, after they have tried electricity and experienced the exhilaration from my Belt, they will be glad to pay the small price it costs them.

I cure some men for \$5.00. My \$5.00 Belt cured one man of lame back who had not been able to bend over to unlace his shoes for five years.

You pay the doctor a little money every month, and a druggist some more for the stuff he sells you to dope your stomach. It's no fun to look back after you have taken the stuff for years and are just as bad off as when you started—and your stomach the worse from the poison you have put into it.

Dear Sir,—I am pleased to say that I am in perfectly good health, as far as I know, and although it is now years since I used your Belt, I may say I am completely cured of the disease for which I bought same over six years ago. If this is of any value to you, you are at liberty to use it, and I trust you may have continued success with your Belt.

Dear Sir,—I am completely cured of my trouble through the use of your Electric Belt. Have never had any return of it since using your Belt over two years ago. Thanking you for the interest shown me, I am,

F. G. HABKIRK, Cartwright, Man.

HARRY OTTO (Section Foreman), Sanford, Man.
