Particulars from any Canadian Pacific Ticket Agent, or write W. B. Howard, District Passenger Agent, Toronto.

The T. Eaton Co. had a business turnover last year of seventy five million dollars, and will under the new taxation law of companies by the Dominion government contribute about two million dollars to the Federal ex-cheker. The government takes 25% of all the profits over 10%, so it will be seen the T. Eaton Co. made tremendous profits last year. The T. Eaton Co. sends many parcels by express and parcel post into different urban municipalities in competition with merchants who pay a business tax and contribute largely to the general expenses in country towns and villages, and if the T. Eaton Company contributed a share of its abnormal profits to the places in which it did business, taxation would be lighter in every urban centre in this province. Besides, this contribution of taxation would tend to help debt-burdened municipalities and keep the large stockholders in big companies from becoming multi-millionaires.—Chesley Enterprise
