Ottawa, June 28 .- [Special.]-Sir Chas. Hibbert Tupper concluded his speech on the Yukon charges at 6 o'clock tonight. He spoke six hours yesterday and three today, making nine hours in all. He closed by moving a resolution which contained 15,000 words. It summarized the principal part of his speech, and charged maladministration in the Yukon. It charged neglect on the part of the ministers and corruption on the part of the officials. His charges against Major Walsh were that he was immoral, and so con-

ducted himself as to be the contempt of Canada. At the evening session there was an hour for private bills, and it took the speaker more than an hour afterwards to read Tupper's resolution. It was therefore too late for Hon. Clifford Sifton to reply. The latter replies tomorrow. He will likely show that part of the resolution is of such a nature, seeing it makes charges against ministers, that could only be dealt with by parliamentary committee. It also makes charges against Judges, which could only be dealt with by impeachment. Then, as to the charges against officials,

Ogilvie's report of the evidence has only just been received and the members have not had time to read the same. If, after having read it and found investigation not sufficient, then another and fuller inquiry may be held. This, at any rate, is posed to be the view the government will take.
