New York, February 14—24, P.M.

It has poured rain all day.

Washington, February 14—Senate.—Yesterday Mr. Davis, of Missouri, having the floor, proceeded to address the Senate at length on the question of Slavery, and, in reply to Mr. Clay, stated that he had been litterly disappointed in view of the course adopted by the Senator. He had hoped from him some plan of settlement—something on which the patriotic on all sides would agree. Instead of that, he had presented a sheme which casentially conceded to the North will that was claimed by the South. Mr. D. took extreme grounds, insisting that Slavery is so recognized in the Constitution, as to make it an finitution of the United States, and not simply of the State in which it existed. He proceeded at great length with an argument on the question, whether Slavery now exists in California and New Mexico by law, taking the affirmative of the proposition, assuming the ground that all the laws of Mexico abolishing Slavery are null and yold, having been passed by authorities not possised of competent jurisdiction. He also defended the Institution of Slavery itself. All history, ancient and modern, showed that the Ethiopian was ever found in the condition of Bondman. Slavery had been the only cause of permanent blessing to the African race, and Emancipation

To enumerate nearly fifty varieties would be needless, or to insist upon the superiority of these Tess over All others in this market, would be only to repeat a fact long since universally advour, sale that the foot of the process and the profile of the profi was ever found in the condition of Bondman. Slavery had been the only cause of permanent blessing to the African race, and Emancipation was fraught with injury to them. He said that it was a ialse humanity which sought to raise them alove their condition. It was an Institution of the Almigary, recogn sed and sanctioned by the Bible from Genes's to Revelations!!!! Before concluding his remarks, Mr. D. gave way to go into Executive Session, which was agreed to. After Executive Session, which was agreed to. After Executive Session, the doers were reopened, when Mr. Foote laid on the table his proposition for a Select Committee of 15, to whom all the questions connected with the Institution of the second second

House.—Mr. Stanton of Tenn, in speaking on e Cilifornia quistion, said, that if California be red on the South in spite of their remonstrances, and the unconstitutional means by which a State w.s. formed, and without such compromise as may arise, he would be ready to make a struggle. On this ground he would be prepared to abanden ion which no longer enabled the South to e climal which ao longer enabled the South to eserve their rights and interests.

the foundation of a good head of hair.

BOGLE'S AMOLE,
A COMPOUND FOR SHAVING.

This delightful article is totally different and far superior to anything yet invented for shaving. The base of it is derived from the dmoft, or "soap plant" of California, an article used by the matives of that country for washing; and thus the use of strong alkali, so hurtful to the skin, is avoided. Its vegetable and detergent properties have the purest and most nourishing effects on the skin,—it soothes and allays irritation, and has a fine, thirk, creamy inther, which does not dry on the face. It is a decided luxary to she shaved with this incomparable soap, It is done up in legant style, calculated either for the dressing ease of the "rough and ready" traveller, or the toilet of the most astitious commossaeur.
