

To The Editor**BETTER SEED GRAIN.**

To the Editor of The Courier:
 Sir—A seed growing centre was organized Thursday evening, the 17th inst. at Falkland, as a result of a lecture by Mr. L. H. Newman, of Ottawa, secretary of The Canadian Seed Growers' Association. Mr. Newman dwelt at some length on methods of seed selection used by that association and the benefits to be derived therefrom. Following the meeting some fifteen farmers decided to join in the good work. They will commence the growing of seed oats, barley corn and potatoes. Their action in taking up this work is certainly to be commended, for there is no one factor that will produce greater results in the way of increased yields than will the selection of grain from selected strains of our leading varieties. These strains are giving the highest yields and are selling at a splendid premium. For in the production of high class seed grain it is difficult to exceed the demand.

It is hoped that similar centres may be formed in various parts of the county at an early date. If there are a number of men at any point, who are interested and wish to know more on this work, we would be glad to arrange for an evening meeting, or if any individual farmer wishes to begin this work, we are willing to help him. Address The Department of Agriculture, Paris, Ont.

F. C. BEAUPRE,
 Assistant District Representative.

Wood is Out of Game.

BOSTON, July 22. — Joe Wood, star pitcher of the Boston Americans, will be out of the game for some weeks. Examination of his injured right thumb under the "X"-ray yesterday, showed that there is a crack in the end of the big bone, and indications are now that a piece of bone has been chipped off. Unusual care is being taken in the treatment of the injury to guard against stiffness in the joints, which would put an end to Wood's usefulness as a pitcher.

£50,000 JEWEL THEFT.**Sentence on a Tailor Who Received a Box of Stolen Valuables.**

Having pleaded guilty to receiving a quantity of stolen jewellery, Hans Porter, aged 35, a tailor, came up for sentence at the Central Criminal Court, London, England. The jewellery was valued at £50,000, and was stolen by a valet from Senora de Mier, wife of the Mexican ex-Minister at Paris.

When the case was previously before the court it was stated that Porter had had a box of the stolen jewellery in his possession and that only £500 worth had been recovered. Sentence had been deferred in order that Porter might assist the police to make further discoveries if possible.

Detective Sergeant Bishop said that the accused had given the police no information of any value, and Judge Lumley Smith passed sentence of eighteen months' imprisonment, with hard labor.

TRAGEDY OF UNEMPLOYMENT**Woman Manages to Save Her Baby But is Herself Killed**

A barman named John Adams on Wednesday night murdered his wife at the rear of her father's house, at Paisley, and afterwards committed suicide by cutting his throat. A baby, a few weeks old, held by the woman, escaped unhurt.

The woman's body was found behind the window of her father's cottage. Her husband dragged himself two hundred yards along the road before he died.

Adams had had a nervous breakdown, and had been in Glasgow Infirmary to undergo an operation recently. The couple had broken up their household last month on account of the man's lack of employment. For the past few weeks they had been living with relations.

 SPLENDID PROOF**

That Dodd's Kidney Pills Cure Bright's Disease

Ontario Man's Kidney Disease Gradually Grew Worse Till He Used Dodd's Kidney Pills—Then He Found Speedy and Complete Cure.

LEFAIVRE, Ont., July 21—(Special)—Rescued from the grasp of deadly Bright's Disease by Dodd's Kidney Pills, Mr. Amable Lamarche, a well known resident of this place, is singing the praises of this standard remedy for kidney ailments.

"My sickness started from a strain," Mr. Lamarche states: "and for a year I did not know a well day. My sleep was broken and unrefreshing, my appetite was fitful, and my limbs would swell. Then rheumatism set in, and neuralgia, backache, headache, and heart trouble added to my tortures.

"The doctor who attended me could give me no relief, and finally, when Bright's Disease had me in its grasp, I decided to try Dodd's Kidney Pills. "After taking three boxes of them I was as well as ever I was in my life, and I have had no pain since."

Mr. Lamarche's case again demonstrates two things. The first is that neglected kidney trouble brings the most painful and dangerous of diseases; the second that Dodd's Kidney Pills cure kidney disease in any of its stages. Dodd's Kidney Pills cure where every other medicine fails.

Get just the right workers by means of the wants

"YOUR HEALTH IS— —YOUR WEALTH"

Men's Work Has Been Lightened and Systemized
 by Means of Labor-Saving Machinery
Why Not a Woman's?

**Dr. Kellogg, President
 of the Battle Creek
 Sanitarium in One
 of His Lectures,
 Stated:**

"Excessive loss of life of infants, aged from three months to four years, is caused mainly by the mother permitting the child to play on a carpeted floor, filled with street dirt, which contains millions of microbes that are brought in on the feet and ground into the carpet. It is criminal to let a child play on a carpet unless it has been 'vacuum' cleaned."

Prof Rodugres, United States Expert Consulting Engineer, After Thoroughly Examining Our Machine Says:

"It is the first hand-power cleaner that I have examined that pleases me. The principal is mechanically correct; the construction is based on exact scientific principles. It not only removes all dirt and dust, but, on account of the excessive air displacement and continuous suction, removes the dirt and filth from under as well as from the top of the carpet with less effort than any other vacuum cleaner I have ever examined. In fact, it is the most complete dirt eater I have ever seen. The material used and the construction are both so nearly perfect that it is practically indestructible. If you will think for a minute, you will realize that a number of diseases are caused by germs and microbes in the filth brought into the house by dogs, cats, rats, flies, and the filth off your feet. Among the diseases that can be mentioned are diphtheria, typhoid fever, smallpox, scarlet fever, measles, whooping cough, grippe, spinal meningitis, pneumonia, erysipelas, cholera, yellow fever, malarial fever, tuberculosis, tonsillitis, cholera infantum, and a number of others. Were it possible to show you by means of the magnifying glass the filth and germs that are lodged in your carpets and rugs, you should be so frightened that you would immediately order a vacuum cleaner or abandon your carpets and rugs. Do not trifle with the health of your family!" If you have no vacuum cleaner, in justice to your family's health, have a demonstrator call to-day. It will cost you nothing, and you will have a sanitary home. It is a health saver, labor saver, and money saver. It can be used every day, and does not wear the nap off the carpet, like ordinary sweeping; nothing to get out of order, runs quietly, a child can run it, and will last for years.

**J. M. Werzke, A.M.,
 M.D., the world's
 recognized authority
 on bacteriology,
 in a recent
 lecture, said:**

"If all carpets and rugs were kept thoroughly cleaned, and all windows and doors thoroughly screened, our mortality from infectious diseases would be reduced 90 per cent; in fact, all Municipalities should enact laws to compel each householder to adopt and use a vacuum cleaner."

The Brantford Daily Courier has made arrangements to secure a large number of 1913 WIRELESS VACUUM CLEANERS. These cleaners are equipped with three bellows which are operated from backward and forward motion of the machine. Do not trifle with the health of your family. If you have no Vacuum Cleaner, order one to-day. For free demonstration telephone the Courier Office. Phones 139.
